

facilitated discussions with relevant stakeholder groups, practitioners, and researchers. In addition up to 9–12 interviews with experts in the various aspects of the field will be conducted to obtain their reaction to the preliminary concept map generated by the brainstorming, sorting, and rating process and asked to provide information about what may be missing, need amplification, or to be interrelated in a different manner than on the preliminary concept map. Guiding questions and discussion prompts, derived from the concept mapping results, will be used to gather information from the respondents on the

meaning and potential use of the concept mapping results. This input will be aggregated and linked to the emerging conceptual framework that will result in a better understanding of the complex interrelationships between policy, practice, and research elements in the field of elder justice. Thus, the challenges, and needs of practitioners on the front lines will inform the work of researchers, and the researchers' findings will inform the work of policy makers and practitioners, and the policy makers will communicate with researchers and practitioners about what information they need to properly inform policy. A single concept mapping

process will provide an efficient means for managing participation while simultaneously integrating perspectives that are complementary and mutually informative.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 750 respondents total will participate in the concept mapping phase of this collection, and that 60 respondents total will participate in the facilitated discussions. The table below shows the estimated number of respondents for each portion of the collection:

Task	Participation targets	Total task target
<b>Concept Mapping:</b>		
Brainstorming .....	750	750
Sorting .....	250	250
Rating .....	750	750
<b>Total group target .....</b>	<b>.....</b>	<b>750</b>
<b>Facilitated discussion</b>		
Policy maker group 1 .....	10	10
Policy maker group 2 .....	10	10
Practitioner group 3 .....	10	10
Practitioner group 4 .....	10	10
Researcher group 5 .....	10	10
Researcher group 6 .....	10	10
<b>Total group target .....</b>	<b>10</b>	<b>60</b>
Expert Interview .....	9–12	9–12

The brainstorming task will take respondents 5–10 minutes to complete. The sorting task will take respondents approximately 30–60 minutes to complete. The rating task will take respondents approximately 30 minutes to complete. None of these tasks will require participants to complete in one sitting; rather, participants can return to work on task completion as often as they chose, until the task deadline. Respondents will have approximately 4 weeks to brainstorm and approximately 6 weeks to sort and rate. Facilitated discussions will require approximately 4 hours of respondents' time.

Expert interview will require no more than 90 minutes of respondents' time.

(6) An estimate of the total public burden (in hours) associated with the collection: There are an estimated 948 total public burden hours associated with this collection. This is planned to be a one-time data collection.
