

Local, and Commonwealth governments.

Title: Air Stationary Source Compliance and Enforcement Information.

ICR numbers: EPA ICR No. 0107.10, OMB Control No. 2096-0096.

ICR status: This ICR is currently scheduled to expire on July 31, 2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The collection of air compliance monitoring and enforcement information in the Air Facility System (AFS) provides EPA with the ability to assess progress toward meeting emission requirements developed under the authority of the Clean Air Act (CAA) to protect and maintain the atmospheric environment and public health. Agencies receive delegation of the CAA through regulated grant authorities, and report compliance/enforcement activities undertaken at stationary sources using the Minimum Data Requirements (MDRs) as outlined in the renewal of this ICR. *This renewal requires the continuation of reporting of previously established MDRs with the following changes:*

1. The reporting of North American Industrial Code System (NAICS) codes, instead of Standard Industrial Codes (SIC), in AFS to better align with existing State/EPA data standards. Previous AFS reporting requirements included reporting of either the SIC or NAICS code. Technical assistance for population of NAICS codes will be made available to delegated agencies upon request.

2. Change to reporting Nonattainment Indicators from current values of moderate, extreme and serious to one of three values: A=Attainment, N=Nonattainment, and U=Unclassified. This change is needed to enable AFS to continue supporting management of attainment and nonattainment area data in the manner in which it is classified by EPA's Office of Air and Radiation. EPA can assist with initial population of new indicators in AFS.

The provisions of Section 114(a)(1) of the Clean Air Act, 42 U.S.C. Section 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q-Reports in 40 CFR 51: Sections 51.324(a) and (b), and 51.327.

Are there Changes in the estimates from the last approval?

EPA anticipates that operational and maintenance costs will increase due to modest inflationary pressures that increase hourly resource costs for management, professional, and related occupational groups. The labor rates used in the ICR estimates will be taken from the Department of Labor Employment Compensation and Costs (ECEC) Web site. These changes will be reflected in the final supporting statement for this ICR. Additionally, the number of respondents will be corrected to reflect 99 respondents, an increase from 93 in the previous ICR resulting in an overall increase in hours and resources for reporting.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will be submitted by EPA to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB, and a second opportunity to submit additional comments to OMB. If you have any questions about this ICR, or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT:**

Dated: December 21, 2010.

Lisa C. Lund,

Director, Office of Compliance, Office of Enforcement and Compliance Assurance.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9254-1]

FY2011 Supplemental Funding for Brownfields Revolving Loan Fund (RLF) Grantees

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of the availability of funds.

SUMMARY: EPA's Office of Brownfields and Land Revitalization (OBLR) plans to

make available approximately \$8 million to supplementally fund Revolving Loan Fund capitalization grants previously awarded competitively under section 104(k)(3) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. 9604(k)(3). Brownfields Cleanup Revolving Loan Fund (BCRLF) pilots awarded under section 104(d)(1) of CERCLA that have not transitioned to section 104(k)(3) grants are not eligible to apply for these funds. EPA will consider awarding supplemental funding only to RLF grantees who have demonstrated an ability to deliver programmatic results by making at least one loan or subgrant. The award of these funds is based on the criteria described at CERCLA 104(k)(4)(A)(ii).

The Agency is now accepting requests for supplemental funding from RLF grantees. Requests for funding must be submitted to the appropriate EPA Regional Brownfields Coordinator (listed below) by February 17, 2011.

Funding requests for hazardous substances and/or petroleum funding will be accepted. Specific information on submitting a request for RLF supplemental funding is described below and additional information may be obtained by contacting the EPA Regional Brownfields Coordinator.

DATES: This action is effective January 18, 2011.

ADDRESSES: A request for supplemental funding must be in the form of a letter addressed to the appropriate Regional Brownfields Coordinator (*see listing below*) with a copy to Megan Quinn, U.S. EPA, 1200 Pennsylvania Ave., NW., MC: 5105T, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Megan Quinn, U.S. EPA, (202) 566-2773 or the appropriate Brownfields Regional Coordinator.

SUPPLEMENTARY INFORMATION:

Background

The Small Business Liability Relief and Brownfields Revitalization Act added section 104(k) to CERCLA to authorize Federal financial assistance for brownfields revitalization, including grants for assessment, cleanup and job training. Section 104(k) includes a provision for the EPA to, among other things, award grants to eligible entities to capitalize Revolving Loan Funds and to provide loans and subgrants for brownfields cleanup. Section 104(k)(4)(A)(ii) authorizes EPA to make additional grant funds available to RLF grantees for any year after the year for which the initial grant is made

(noncompetitive RLF supplemental funding) taking into consideration:

(I) The number of sites and number of communities that are addressed by the revolving loan fund;

(II) The demand for funding by eligible entities that have not previously received a grant under this subsection;

(III) The demonstrated ability of the eligible entity to use the revolving loan fund to enhance remediation and provide funds on a continuing basis; and

(IV) Such other similar factors as the [Agency] considers appropriate to carry out this subsection.

Eligibility

In order to be considered for supplemental funding, RLF recipients must have made at least one loan or subgrant prior to applying for this supplemental funding. Additionally, the RLF recipient must have significantly depleted existing available funds; demonstrated a need for supplemental funding based on, among other factors, the number of sites that will be addressed; demonstrated the ability to make loans and subgrants for cleanups that can be started and completed expeditiously (*i.e.* "shovel-ready" projects); demonstrated the ability to administer and revolve the

capitalization funding in the RLF grant; demonstrated an ability to use the RLF grant to address funding gaps for cleanup; and demonstrated that they have provided a community benefit from past and potential loan(s) and/or subgrant(s). Applicants for supplemental funding must contact the appropriate Regional Brownfields Coordinator below to obtain information on the format for supplemental funding applications for their region. When requesting supplemental funding, applicants must specify whether they are seeking funding for sites contaminated by hazardous substances or petroleum. Applicants may request both types of funding.
