

**§ 450.210**

**23 CFR Ch. I (4-1-01 Edition)**

value capture pricing, tolls, and congestion pricing;

(17) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors, identification of those corridors for which action is most needed to prevent destruction or loss (including strategies for preventing loss of rights-of-way);

(18) Long-range needs of the State transportation system for movement of persons and goods;

(19) Methods to enhance the efficient movement of commercial motor vehicles;

(20) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavements;

(21) The coordination of transportation plans and programs developed for metropolitan planning areas of the State under 23 U.S.C. 134 and section 8 of the Federal Transit Act with the statewide transportation plans and programs developed under this subpart, and the reconciliation of such plans and programs as necessary to ensure connectivity within transportation systems;

(22) Investment strategies to improve adjoining State and local roads that support rural economic growth and tourism development, Federal agency renewable resources management, and multipurpose land management practices, including recreation development; and

(23) The concerns of Indian tribal governments having jurisdiction over lands within the boundaries of the State.

(b) The degree of consideration and analysis of the factors should be based on the scale and complexity of many issues, including transportation problems, land use, employment, economic development, environmental and housing and community development objectives, the extent of overlap between factors and other circumstances statewide or in subareas within the State.

**§ 450.210 Coordination.**

(a) In addition to the coordination required under § 450.208(a)(21), in carrying out the requirements of this subpart,

each State, in cooperation with participating organizations (such as MPOs, Indian tribal governments, environmental, resource and permit agencies, public transit operators) shall, to the extent appropriate, provide for a fully coordinated process including coordination of the following:

(1) Data collection, data analysis and evaluation of alternatives for a transit, highway, bikeway, scenic byway, recreational trail, or pedestrian program with any such activities for the other programs;

(2) Plans, such as the statewide transportation plan required under § 450.214, with programs and priorities for transportation projects, such as the STIP;

(3) Data analysis used in development of plans and programs, (for example, information resulting from traffic data analysis, data and plans regarding employment and housing availability, data and plans regarding land use control and community development) with land use projections, with data analysis on issues that are part of public involvement relating to project implementation, and with data analyses done as part of the establishment and maintenance of management systems developed in response to 23 U.S.C. 303;

(4) Consideration of intermodal facilities with land use planning, including land use activities carried out by local, regional, and multistate agencies;

(5) Transportation planning carried out by the State with transportation planning carried out by Indian tribal governments, Federal agencies and local governments, MPOs, large-scale public and private transportation providers, operators of major intermodal terminals and multistate businesses;

(6) Transportation planning carried out by the State with significant transportation-related actions carried out by other agencies for recreation, tourism, and economic development and for the operation of airports, ports, rail terminals and other intermodal transportation facilities;

(7) Public involvement carried out for the statewide planning process with public involvement carried out for the metropolitan planning process;

(8) Public involvement carried out for planning with public involvement carried out for project development;

(9) Transportation planning carried out by the State with Federal, State, and local environmental resource planning that substantially affects transportation actions;

(10) Transportation planning with financial planning;

(11) Transportation planning with analysis of potential corridors for preservation;

(12) Transportation planning with analysis of social, economic, employment, energy, environmental, and housing and community development effects of transportation actions; and

(13) Transportation planning carried out by the State to meet the requirements of 23 U.S.C. 135 with transportation planning to meet other Federal requirements including the State rail plan.

(b) The degree of coordination should be based on the scale and complexity of many issues including transportation problems, land use, employment, economic, environmental, and housing and community development objectives, and other circumstances statewide or in subareas within the State.

#### § 450.212 Public involvement.

(a) Public involvement processes shall be proactive and provide complete information, timely public notice, full public access to key decisions, and opportunities for early and continuing involvement. The processes shall provide for:

(1) Early and continuing public involvement opportunities throughout the transportation planning and programming process;

(2) Timely information about transportation issues and processes to citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, other interested parties and segments of the community affected by transportation plans, programs, and projects;

(3) Reasonable public access to technical and policy information used in the development of the plan and STIP;

(4) Adequate public notice of public involvement activities and time for

public review and comment at key decision points, including but not limited to action on the plan and STIP;

(5) A process for demonstrating explicit consideration and response to public input during the planning and program development process;

(6) A process for seeking out and considering the needs of those traditionally underserved by existing transportation systems, such as low-income and minority households which may face challenges accessing employment and other amenities;

(7) Periodic review of the effectiveness of the public involvement process to ensure that the process provides full and open access to all and revision of the process as necessary.

(b) Public involvement activities carried out in a metropolitan area in response to metropolitan planning requirements in § 450.322(c) or § 450.324(c) may by agreement of the State and the MPO satisfy the requirements of this section.

(c) During initial development and major revisions of the statewide transportation plan required under § 450.214, the State shall provide citizens, affected public agencies and jurisdictions, employee representatives of transportation and other affected agencies, private and public providers of transportation, and other interested parties a reasonable opportunity to comment on the proposed plan. The proposed plan shall be published, with reasonable notification of its availability, or otherwise made readily available for public review and comment. Likewise, the official statewide transportation plan (see § 450.214(d)) shall be published, with reasonable notification of its availability, or otherwise made readily available for public information.

(d) During development and major revision of the statewide transportation improvement program required under § 450.216, the Governor shall provide citizens, affected public agencies and jurisdictions, employee representatives of transportation or other affected agencies, private providers of transportation, and other interested parties, a reasonable opportunity for review and comment on the proposed program.
