

Federal Highway Administration, DOT

§ 710.513

real property in Federal ownership shall be in accordance with Federal land transfer provisions in subpart F of this part.

(d) *Limits upon participation.* Federal-aid participation in the costs of functional replacement are limited to costs which are actually incurred in the replacement of the acquired land and/or facility and are:

(1) Costs for facilities which do not represent increases in capacity or betterments, except for those necessary to replace utilities, to meet legal, regulatory, or similar requirements, or to meet reasonable prevailing standards; and

(2) Costs for land to provide a site for the replacement facility.

(e) *Procedures.* When a State determines that payments providing for functional replacement of public facilities are allowable under State law, the State will incorporate within the State's ROW operating manual full procedures covering review and oversight that will be applied to such cases.

§ 710.511 Transportation enhancements.

(a) *General.* Section 133(b) (8) of title 23 of the United States Code authorizes the expenditure of surface transportation funds for transportation enhancement activities (TEA). Transportation enhancement activities which involve the acquisition, management, and disposition of real property, and the relocation of families, individuals, and businesses, are governed by the general requirements of the Federal-aid program found in titles 23 and 49 of the Code of Federal Regulations (CFR), except as specified in paragraph (b)(3) of this section.

(b) *Requirements.* (1) Displacements for TEA are subject to the Uniform Act.

(2) Acquisitions for TEA are subject to the Uniform Act except as provided in paragraphs (b)(3), (b)(4), and (b)(5) of this section.

(3) Entities acquiring real property for TEA who lack the power of eminent domain may comply with the Uniform Act by meeting the limited requirements under 49 CFR 24.101(a)(2).

(4) The requirements of the Uniform Act do not apply when real property

acquired for a TEA was purchased from a third party by a qualified conservation organization, and—

(i) The conservation organization is not acting on behalf of the agency receiving TEA or other Federal-aid funds, and

(ii) There was no Federal approval of property acquisition prior to the involvement of the conservation organization. [“Federal approval of property acquisition” means the date of the approval of the environmental document or project authorization/agreement, whichever is earlier. “Involvement of the conservation organization” means the date the organization makes a legally binding offer to acquire a real property interest, including an option to purchase, in the property.]

(5) When a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds on behalf of an agency with eminent domain authority, the requirements of the Uniform Act apply as if the agency had acquired the property itself.

(6) When, subsequent to Federal approval of property acquisition, a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds, and there will be no use or recourse to the power of eminent domain, the limited requirements of 49 CFR 24.101(a)(2) apply.

(c) *Property management.* Real property acquired with TEA funds shall be managed in accordance with the property management requirements provided in subpart D of this part. Any use of the property for purposes other than that for which the TEA funds were provided must be consistent with the continuation of the original use. When the original use of the real property is converted by sale or lease to another use inconsistent with the original use, the STD shall assure that the fair market value or rent is charged and the proceeds reapplied to projects eligible under title 23 of the United States Code.

§ 710.513 Environmental mitigation.

(a) The acquisition and maintenance of land for wetlands mitigation, wetlands banking, natural habitat, or

other appropriate environmental mitigation is an eligible cost under the Federal-aid program. FHWA participation in wetland mitigation sites and other mitigation banks is governed by 23 CFR part 777.

(b) Environmental acquisitions or displacements by both public agencies and private parties are covered by the Uniform Act when they are the result of a program or project undertaken by a Federal agency or one that receives Federal financial assistance. This includes real property acquired for a wetland bank, or other environmentally related purpose, if it is to be used to mitigate impacts created by a Federal-aid highway project.

Subpart F—Federal Assistance Programs

§ 710.601 Federal land transfer.

(a) The provisions of this subpart apply to any project undertaken with funds for the National Highway System. When the FHWA determines that a strong Federal transportation interest exists, these provisions may also be applied to highway projects that are eligible for Federal-aid under Chapters 1 and 2 of title 23, of the United States Code, and to highway-related transfers that are requested by a State in conjunction with a military base closure under the Defense Base Closure and Realignment Act of 1990 (Public Law 101–510, 104 Stat. 1808, as amended).

(b) Sections 107(d) and 317 of title 23, of the United States Code provide for the transfer of lands or interests in lands owned by the United States to an STD or its nominee for highway purposes.

(c) The STD may file an application with the FHWA, or can make application directly to the land-owning agency if the land-owning agency has its own authority for granting interests in land.

(d) Applications under this section shall include the following information:

- (1) The purpose for which the lands are to be used;
- (2) The estate or interest in the land required for the project;
- (3) The Federal-aid project number or other appropriate references;

(4) The name of the Federal agency exercising jurisdiction over the land and identity of the installation or activity in possession of the land;

(5) A map showing the survey of the lands to be acquired;

(6) A legal description of the lands desired; and

(7) A statement of compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4332, *et seq.*) and any other applicable Federal environmental laws, including the National Historic Preservation Act (16 U.S.C. 470(f)), and 23 U.S.C. 138.

(e) If the FHWA concurs in the need for the transfer, the land-owning agency will be notified and a right-of-entry requested. The land-owning agency shall have a period of four months in which to designate conditions necessary for the adequate protection and utilization of the reserve or to certify that the proposed appropriation is contrary to the public interest or inconsistent with the purposes for which such land or materials have been reserved. The FHWA may extend the four-month reply period at the timely request of the land-owning agency for good cause.

(f) Deeds for conveyance of lands or interests in lands owned by the United States shall be prepared by the STD and certified by an attorney licensed within the State as being legally sufficient. Such deeds shall contain the clauses required by the FHWA and 49 CFR 21.7(a)(2). After the STD prepares the deed, it will submit the proposed deed with the certification to the FHWA for review and execution.

(g) Following execution, the STD shall record the deed in the appropriate land record office and so advise the FHWA and the concerned agency.

(h) When the need for the interest acquired under this subpart no longer exists, the STD must restore the land to the condition which existed prior to the transfer and must give notice to the FHWA and to the concerned Federal agency that such interest will immediately revert to the control of the Federal agency from which it was appropriated or to its assigns. Alternative arrangements may be made for the sale or reversion or restoration of the lands no longer required as part of
