

of the FHAEL. However, in no case will the PHA use an amount that exceeds 120% of its FHAEL for purposes of FY 2001 subsidy determinations under the Operating Fund Formula (see paragraph (e)(3)(v) of this section).

(iv) *If the PHA has 250–499 units.* PHAs with 250–499 units shall use the higher of their current AEL, or 70% of FHAEL. However, in no case will the PHA use an amount that exceeds 120% of its FHAEL for purposes of FY 2001 subsidy determinations under the Operating Fund Formula (see paragraph (e)(3)(v) of this section).

(v) *If the PHA with less than 500 units has an AEL greater than 120% of its FHAEL.* If a PHA with less than 500 units has an FY 2000 AEL that is greater than 120% of its FHAEL, the PHA shall use 120% of its FHAEL in place of its actual FY 2000 AEL for purposes of FY 2001 subsidy determinations under the Operating Fund Formula.

(4) *Use of FHAEL for FY 2000 for PHAs with more than 500 units under contract.* Each PHA with more than 500 units shall review the FHAEL and bedroom distribution provided by HUD and do the following:

(i) *The PHA shall determine if the bedroom size distribution used by HUD was appropriate.—(A) Mandatory recalculation.* If the bedroom size distribution calculated by the PHA produces a weighted average bedroom size that differs by more than .02 from the weighted average used by HUD, the PHA shall recalculate its FY 2000 FHAEL using the two-bedroom base average national operating cost provided by HUD.

(B) *Discretionary recalculation.* If the bedroom size distribution calculated by the PHA produces a weighted average bedroom size that differs by less than .02 from the weighted average used by HUD, the PHA may recalculate its FY 2000 FHAEL using the two-bedroom base average national operating cost provided by HUD.

(ii) *Comparison of FHAEL to AEL.* The PHA shall compare its FHAEL with its approved FY 2000 AEL.

(iii) *If the PHA's FY 2000 AEL is less than or equal to 85% of its FHAEL.* If the PHA's FY 2000 AEL is less than or equal to 85% of its FHAEL, the PHA shall use its FY 2000 AEL for purposes

of FY 2001 subsidy determinations under the Operating Fund Formula.

(iv) *If the PHA's FY 2000 AEL is greater than 85% of its FHAEL.* If the PHA's FY 2000 AEL is greater than 85% of its FHAEL, the PHA shall use 98.64% of its FY 2000 AEL for purposes of calculating its FY 2001 subsidy determinations under the Operating Fund Formula.

(v) *Inapplicability of AEL reduction to certain PHAs.* The AEL reduction described in paragraph (e)(4)(iv) of this section does not apply to the PHAs of the Virgin Islands, Puerto Rico, Guam and Alaska. These PHAs will use their FY 2000 AELs for purposes of FY 2001 subsidy determinations, regardless of whether the PHA's AEL is greater than 85% of its FHAEL.

(vi) *Cap on AEL value reduction.* In no instance shall a PHA subject to an AEL reduction, reduce the FY 2000 AEL value used in calculating its FY 2001 AEL for purposes of operating subsidy determinations to a value less than 85% of its FHAEL.

(f) *Flood insurance adjustment for FY 2001.* To simplify the calculation of operating subsidy, the AEL computation for the PHA's fiscal year beginning in 2001 will include an additional step following the determination made in accordance with paragraphs (a) through (e) of this section: the AEL per unit month derived in accordance with those paragraphs is to be adjusted by adding the flood insurance charge per unit month, as reflected in the last HUD approved subsidy calculation for FY 2000. This adjustment is a one-time permanent adjustment made only in FY 2001. However, if the flood map is revised at a future date, HUD will adjust the AEL for the affected PHAs in accordance with this paragraph.

§ 990.106 Transition funding for excessively high-cost PHAs.

(a) *Eligibility.* If a PHA's Base Year Expense Level exceeds its AEL for any budget year under the Operating Fund Formula, the PHA may be eligible for Transition Funding.

(b) *Amounts.* Transition Funding shall be an amount not to exceed the

§ 990.107

difference between the Base Year Expense Level and the AEL for the Requested Budget Year, multiplied by the number of Unit Months Available.

(c) *Reduction in transition funding.* HUD shall have the right to discontinue payment of all or part of the Transition Funding in the event HUD at any time determines that the PHA has not achieved a satisfactory level of management efficiency, or is not making efforts satisfactory to HUD to improve its management performance.

§ 990.107 Computation of utilities expense level.

(a) *Computation of the utilities expense level.* The PHA's Utilities Expense Level for the requested Budget Year shall be computed by multiplying the Allowable Utilities Consumption Level (AUCL) per unit per month for each utility, determined as provided in paragraph (c) of this section, by the projected utility rate determined as provided in paragraph (b) of this section.

(b) *Utilities rates.* (1) The current applicable rates, with consideration of adjustments and pass-throughs, in effect at the time the Operating Budget is submitted to HUD will be used as the utilities rates for the Requested Budget Year, except that, when the appropriate utility commission has, prior to the date of submission of the Operating Budget to HUD, approved and published rate changes to be applicable during the Requested Budget Year, the future approved rates may be used as the utilities rates for the entire Requested Budget Year.

(2) If a PHA takes action, such as wellhead purchase of natural gas, or administrative appeals or legal action beyond normal public participation in rate-making proceedings to reduce the rate it pays for utilities (including water, fuel oil, electricity, and gas), then the PHA will be permitted to retain one-half of the cost savings during the first 12 months attributable to its actions. Upon determination that the

action was cost-effective in the first year, the PHA may be permitted to retain one-half the annual cost savings, if the actions continue to be cost-effective. See also paragraph (e) of this section and § 990.110(b).

(c) *Computation of Allowable Utilities Consumption Level.* The Allowable Utilities Consumption Level used to compute the Utilities Expense Level of PHAs for the Requested Budget Year generally will be based on the availability of consumption data. For project utilities where consumption data are available for the entire Rolling Base Period, the computation will be in accordance with paragraph (c)(1) of this section. Where data are not available for the entire period, the computation will be in accordance with paragraph (c)(2) of this section, unless the project is a new project, in which case the computation will be in accordance with paragraph (c)(3) of this section. For a project where the PHA has taken special energy conservation measures that qualify for special treatment in accordance with paragraph (f)(1) of this section, the computation of the Allowable Utilities Consumption Level may be made in accordance with paragraph (c)(4) of this section. The AUCL for all of a PHA's projects is the sum of the amounts determined using all of these subparagraphs, as appropriate.

(1) *Rolling Base Period System.* (i) For project utilities with consumption data for the entire Rolling Base Period, the AUCL is the average amount consumed per unit per month during the Rolling Base Period adjusted in accordance with paragraph (d) of this section. The PHA shall determine the average amount of each of the utilities consumed during the Rolling Base period (i.e., the 36-month period ending 12 months prior to the first day of the Requested Budget Year).

(ii) An example of a rolling base is as follows:

PHA fiscal year (affected fiscal year)		Rolling base period	
Beginning	Ending	Begins	Ends
1-1-01	12-31-01 (1st year)	1-1-97	12-31-99
1-1-02	12-31-02 (2nd year)	1-1-98	12-31-00
