

the carryback of an unused investment credit, the twelve-month period for filing shall not expire before the close of December 31, 1966. Any application filed prior to the date on which the return for the taxable year of the loss or unused credit is filed shall be considered to have been filed on the date such return is filed. In the case of an application filed before April 15, 1968, the application shall be filed with the internal revenue officer to whom the tax was paid or by whom the assessment was made. Except as provided in paragraph (b) of § 301.6091-1 (relating to hand-carried documents), in the case of an application filed after April 14, 1968, if the tax was paid to the Director of International Operations, the application shall be filed with him; otherwise the application shall be filed with the internal revenue office with which the return was filed.

§ 1.6411-2 Computation of tentative carryback adjustment.

(a) *Tax previously determined.* The taxpayer is to determine the amount of decrease, attributable to the carryback, in tax previously determined for each taxable year before the taxable year of the net operating loss, net capital loss, unused investment credit, or unused WIN credit. The tax previously determined is to be ascertained in accordance with the method prescribed in section 1314(a). Thus, the tax previously determined will be the tax shown on the return as filed, increased by any amounts assessed (or collected without assessment) as deficiencies before the date of the filing of the application for a tentative carryback adjustment, and decreased by any amounts abated, credited, refunded, or otherwise repaid prior to such date. Any items as to which the Internal Revenue Service and the taxpayer are in disagreement at the time of the filing of the application shall be taken into account in ascertaining the tax previously determined only if, and to the extent that,

they were reported in the return, or were reflected in any amounts assessed (or collected without assessment) as deficiencies, or in any amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application. The tax previously determined, therefore, will reflect the foreign tax credit and the credit for tax withheld at source provided in section 32.

(b) *Decrease attributable to carryback.* The decrease in tax previously determined which is affected by the carryback or any related adjustments, is to be determined, except for such carryback and related adjustments, on the basis of the items which entered into the computation of such tax as previously determined; the tax previously determined being ascertained in the manner described in this section. In determining any such decrease, items shall be taken into account only to the extent that they were reported in the return, or were reflected in amounts assessed (or collected without assessment) as deficiencies, or in amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application for a tentative carryback adjustment. If the Internal Revenue Service and the taxpayer are in disagreement as to the proper treatment of any item, it shall be assumed for purposes of determining the decrease in the tax previously determined that such item was correctly reported by the taxpayer unless, and to the extent that, the disagreement has resulted in the assessment of a deficiency (or the collection of an amount without an assessment), or the allowing or making of an abatement, credit, refund, or other repayment, before the date of filing the application. Thus, if the taxpayer claimed a deduction on its return of \$50,000 for salaries paid its officers but the district director asserts that such deduction should not exceed \$20,000, and the Internal Revenue Service and the taxpayer have not agreed on the amount properly deductible before the date the application for a tentative carryback adjustment is filed, \$50,000 shall be considered as the amount properly deductible for purposes of determining the decrease in tax previously determined in respect of the application for a tentative

carryback adjustment. In determining the decrease in tax previously determined, any items which are affected by the carryback must be adjusted to reflect such carryback. Thus, unless otherwise provided, any deduction limited, for example, by adjusted gross income, such as the deduction for medical, dental, etc., expenses is to be recomputed on the basis of the adjusted gross income as affected by the carryback.

[T.D. 6500, 25 FR 12144, Nov. 26, 1960, as amended by T.D. 7301, 39 FR 973, Jan. 4, 1974]

§ 1.6411-3 Allowance of adjustments.

(a) *Time prescribed.* The district director or director of a service center (either of whom are sometimes hereinafter referred to in this section as internal revenue officer) shall act upon any application for a tentative carryback adjustment filed under section 6411(a) within a period of 90 days from whichever of the following two dates is the later:

(1) The date the application is filed; or

(2) The last day of the month in which falls the last date prescribed by law (including any extension of time granted the taxpayer) for filing the return for the taxable year of the net operating loss, net capital loss, unused investment credit, or unused WIN credit from which the carryback results.

(b) *Examination.* Within the 90-day period described in paragraph (a) of this section, the district director or director of a service center shall make, to the extent he deems practicable in such period, an examination of the application to discover omissions and errors of computation. He shall determine within such period the decrease in tax previously determined, affected by the carryback or any related adjustments, upon the basis of the application and such examination. Such decrease shall be determined in the same manner as that provided in section 1314(a) for the determination by the taxpayer of the decrease in taxes previously determined which must be set forth in the application for a tentative carryback adjustment. Such internal revenue officer, however, may correct any errors of computation or omissions he may discover upon examination of the application. In determining the decrease in

tax previously determined which is affected by the carryback or any related adjustment, he accordingly may correct any mathematical error appearing on the application and he may likewise correct any modification required by the law and incorrectly made by the taxpayer in computing the net operating loss, net capital loss, unused investment credit, or unused WIN credit, the resulting carrybacks, or the net operating loss deduction, capital loss deduction, investment credit or WIN credit allowable. If the required modification has not been made by the taxpayer and such internal revenue officer has available the necessary information to make such modification within the 90-day period, he may, in his discretion, make such modification. In determining such decrease, however, such internal revenue officer will not, for example, change the amount claimed on the return as a deduction for depreciation because he believes that the taxpayer has claimed an excessive amount; likewise, he will not include in gross income any amount not so included by the taxpayer, even though such officer believes that such amount is subject to tax and properly should be included in gross income.

(c) *Disallowance in whole or in part.* If the district director or director of a service center finds that an application for a tentative carryback adjustment contains materials omissions or errors of computation, he may disallow such application in whole or in part without further action. If, however, he deems that any error of computation can be corrected by him within the 90-day period, he may do so and allow the application in whole or in part. Such internal revenue officer's determination as to whether he can correct any error of computation within the 90-day period shall be conclusive. Similarly, his action in disallowing, in whole or in part, any application for a tentative carryback adjustment shall be final and may not be challenged in any proceeding. The taxpayer in such case, however, may file a claim for credit or refund under section 6402, and may maintain a suit based on such claim if it is disallowed or if such internal revenue officer does not act upon the
