

year in which an applicable election year begins. For example, assume a partnership made a section 444 election to retain its taxable year for its taxable year beginning October 1, 1987, and as a result made a required payment for such year. Further assume that the partnership terminates its election for its taxable year beginning October 1, 1988. Based on these facts, the partnership will be entitled to a refund, but no earlier than April 15, 1989.

(ii) *Procedures for claiming refund.* [Reserved].

(iii) *Interest on refund.* No interest shall be allowed with respect to any refund of a required payment under § 1.7519-1T(C).

(b) *Assessment and collection of payment.* A required payment shall be assessed and collected in the same manner as if it were a tax imposed by subtitle C. Furthermore, no deduction shall be allowable to a partnership or S corporation (or their owners) with respect to the required payment.

(c) *Termination due to willful failure.* See § 1.444-1T(a)(5)(i)(C), which provides that willful failure to comply with the requirements of this section will result in the termination of the section 444 election.

(d) *Negligence and fraud penalties made applicable.* For purposes of section 6653, relating to additions to tax for negligence and fraud, any payment required by this section shall be treated as a tax.

[T.D. 8205, 53 FR 19709, May 27, 1988]

§ 1.7519-3T Effective date (temporary).

The provisions of §§ 1.7519-1T through § 1.7519-3T are effective for taxable years beginning after December 31, 1986.

[T.D. 8205, 53 FR 19710, May 27, 1988]

GENERAL ACTUARIAL VALUATIONS

§ 1.7520-1 Valuation of annuities, unitrust interests, interests for life or terms of years, and remainder or reversionary interests.

(a) *General actuarial valuations.* (1) Except as otherwise provided in this section and in § 1.7520-3 (relating to exceptions to the use of prescribed tables under certain circumstances), in the case of certain transactions after April

30, 1989, subject to income tax, the fair market value of annuities, interests for life or for a term of years (including unitrust interests), remainders, and reversions is their present value determined under this section. See § 20.2031-7(d) (and, for certain prior periods, § 20.2031-7A) of this chapter, Estate Tax Regulations, for the computation of the value of annuities, unitrust interests, life estates, terms for years, remainders, and reversions, other than interests described in paragraphs (a)(2) and (a)(3) of this section.

(2) For a transfer to a pooled income fund after April 30, 1999, see § 1.642(c)-6(e) (or, for certain prior periods, § 1.642(c)-6A) with respect to the valuation of the remainder interest.

(3) For a transfer to a charitable remainder annuity trust after April 30, 1989, see § 1.664-2 with respect to the valuation of the remainder interest. See § 1.664-4 with respect to the valuation of the remainder interest in property transferred to a charitable remainder unitrust.

(b) *Components of valuation—(1) Interest rate component—(i) Section 7520 interest rate.* The section 7520 interest rate is the rate of return, rounded to the nearest two-tenths of one percent, that is equal to 120 percent of the applicable Federal mid-term rate, compounded annually, for purposes of section 1274(d)(1), for the month in which the valuation date falls. In rounding the rate to the nearest two-tenths of a percent, any rate that is midway between one two-tenths of a percent and another is rounded up to the higher of those two rates. For example, if 120 percent of the applicable Federal mid-term rate is 10.30, the section 7520 interest rate component is 10.4. The section 7520 interest rate is published monthly by the Internal Revenue Service in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter).

(ii) *Valuation date.* Except as provided in § 1.7520-2, the valuation date is the date on which the transaction takes place.

(2) *Mortality component.* The mortality component reflects the mortality data most recently available from the United States census. As new mortality data becomes available after each decennial census, the mortality
