

to as "air taxis" shall be exempt from the tax imposed under section 4261 provided the aircraft (1) has a gross take-off weight of less than 12,500 pounds determined as provided in paragraph (b) of this section and (2) has a passenger seating capacity of less than 10 adult passengers, including the pilot. The exemption does not apply, however, if the aircraft is operated on an established line.

(b) *Determination of gross take-off weight.* The term "gross take-off weight of less than 12,500 pounds" means a maximum certificated take-off weight of less than 12,500 pounds. This shall be based on the maximum certificated take-off weight shown in the aircraft operating record or aircraft flight manual which is part of the air worthiness certificate issued by the Federal Aviation Administration.

(c) *Established line.* The term "operated on an established line" means operated with some degree of regularity between definite points. It does not necessarily mean that strict regularity of schedule is maintained; that the full run is always made; that a particular route is followed; or that intermediate stops are restricted. The term implies that the person rendering the service maintains and exercises control over the direction, route, time, number of passengers carried, etc.
