§ 7.1 Policy.

The regulations in this part define the policies and procedures to be fol-

lowed by the Nuclear Regulatory Commission in the establishment, utilization, and termination of advisory committees. In general, it is the policy of the Commission that—

(a) Except where there is express legal authority to the contrary, the function of NRC advisory committees shall be advisory only.

(b) Each NRC advisory committee shall function in compliance with the Federal Advisory Committee Act and this part.

(c) The number of NRC advisory committees shall be kept to the minimum necessary, and the number of members of each NRC advisory committee shall be limited to the fewest necessary to accomplish committee objectives.

(d) An NRC advisory committee shall be established only when establishment of the committee is required by law or when the Commission determines that the committee is essential to the conduct of NRC business. In making such a determination, the Commission shall consider whether committee deliberations will result in a significant contribution to the creation, amendment, or elimination of regulations, guidelines, or rules affecting NRC business; whether the information to be obtained is available through another source within the Federal Government; whether the committee will make recommendations resulting in significant improvements in service or reductions in cost; or whether the committee’s recommendations will provide an important additional perspective or viewpoint relating to NRC’s mission.

(e) Except where otherwise required by law, an NRC advisory committee shall be terminated whenever the stated objectives of the committee have been accomplished, the subject matter or work of the committee has become obsolete, the committee’s main functions have been assumed by another entity within the Federal Government, or the cost of operating the committee has become excessive in relation to the benefits accruing to the Federal Government from its activities.

(f) NRC advisory committees shall be balanced in their membership in terms of the points of view represented and the functions to be performed.
