(b) *Period of measurement.* (1) Annual receipts of a concern which has been in business for 3 or more completed fiscal years means the receipts of the concern over its last 3 completed fiscal years divided by three.

(2) Annual receipts of a concern which has been in business for less than 3 complete fiscal years means the receipts for the period the concern has been in business divided by the number of weeks in business, multiplied by 52.

(3) Annual receipts of a concern which has been in business 3 or more complete fiscal years but has a short year as one of those years means the receipts for the short year and the two full fiscal years divided by the number of weeks in the short year and the two full fiscal years, multiplied by 52.

(c) *Use of information other than the Federal tax return.* Where other information gives SBA reason to regard Federal Income Tax returns as false, SBA may base its size determination on such other information.

(d) *Annual receipts of affiliates.* (1) If a concern has acquired an affiliate or been acquired as an affiliate during the applicable averaging period or before small business self-certification, the annual receipts in determining size status include the receipts of both firms. Furthermore, this aggregation applies for the entire applicable period used in computing size rather than only for the period after the affiliation arose. Receipts are determined for the concern and its affiliates in accordance with paragraph (b) of this section even though this may result in different periods being used to calculate annual receipts.

(2) The annual receipts of a former affiliate are not included as annual receipts if affiliation ceased before the date used for determining size. This ex-

clusion of annual receipts of a former affiliate applies during the entire period used in computing size, rather than only for the period after which the affiliation ceased .
