

§ 930.54

15 CFR Ch. IX (1-1-01 Edition)

forth in the management program license and permit list the minor Federal license and permit activities and the relevant conditions which are covered by the general concurrence. Minor Federal license or permit activities which satisfy the conditions of the general concurrence are not subject to the consistency certification requirement of this subpart. Except in cases where the State agency indicates otherwise, copies of Federal license or permit applications for activities subject to a general concurrence must be sent by the applicant to the State agency to allow the State agency to monitor adherence to the conditions required by such concurrence. Confidential and proprietary material within such applications may be deleted.

(d) The license and permit list may be amended by the State agency following consultation with the affected Federal agency and approval of additions or deletions by the Assistant Administrator. The State agency shall provide copies of the list and any amendments to Federal agencies and shall make the information available to the public.

(e) No Federal license or permit described on an approved list shall be issued by a Federal agency until the requirements of this subpart have been satisfied. Federal agencies shall inform applicants for listed licenses and permits of the requirements of this subpart.

§ 930.54 Unlisted Federal license and permit activities.

(a) With the assistance of Federal agencies, State agencies should monitor unlisted Federal license and permit activities (e.g., by use of intergovernmental review process established pursuant to E.O. 12372, review of NEPA environmental impact statements, etc.) and shall immediately notify Federal agencies and applicants of unlisted activities affecting the coastal zone which require State agency review. State agencies must inform the Federal agency and applicant within 30 days from notice of the license or permit application, otherwise the State agency waives its right to review the unlisted activity. The waiver does not apply in cases where the State agency

does not receive notice of the Federal license or permit activity.

(b) The State agency must also notify the Assistant Administrator of unlisted Federal license or permit activities which the State agency believes should be subject to State agency review. Following State agency notification to the Federal agency, applicant and the Assistant Administrator, the Federal agency may not issue the license or permit until the requirements of this subpart have been satisfied, unless the Assistant Administrator disapproves the State agency decision to review the activity.

(c) The Federal agency and the applicant have 15 days from receipt of the State agency notice to provide comments to the Assistant Administrator regarding the State agency's decision to review the activity. The sole basis for the Assistant Administrator's approval or disapproval of the State agency's decision will relate to whether the proposed activity can be reasonably expected to affect the coastal zone of the State. The Assistant Administrator shall issue a decision, with supporting comments, to the State agency, Federal agency and applicant within 30 days from receipt of the State agency notice.

(d) In the event of disapproval by the Assistant Administrator, the Federal agency may approve the license or permit application and the applicant need not comply with the requirements of this subpart. If the Assistant Administrator approves the State agency's decision, the Federal agency and applicant must comply with the consistency certification procedures of this subpart.

(e) Following an approval by the Assistant Administrator, the applicant shall amend the Federal application by including a consistency certification and shall provide the State agency with a copy of the certification along with necessary supporting data and information (see §§ 930.63 and 930.64). For the purposes of this section, concurrence by the State agency shall be conclusively presumed in the absence of a State agency objection within six months from the original Federal agency notice to the State agency (see paragraph (a) of this section) or within

three months from receipt of the applicant's consistency certification and accompanying information, whichever period terminates last.

(Executive Order 12372, July 14, 1982 (47 FR 30959), as amended April 8, 1983 (48 FR 15587); sec. 401, Intergovernmental Cooperation Act of 1968, as amended (31 U.S.C. 6506); sec 204, Demonstration Cities and Metropolitan Development Act of 1966 as amended (42 U.S.C. 3334)).

[44 FR 37143, June 25, 1979, as amended at 48 FR 29136, June 24, 1983]

§ 930.55 Availability of mediation for license or permit disputes.

In the event of a serious disagreement between a Federal and State agency regarding whether a listed or unlisted Federal license or permit activity is subject to consistency review, either party may request the Secretarial mediation services provided for in subpart G; notice shall be provided to the applicant. The existence of a serious disagreement will not relieve the Federal agency from the responsibility for withholding approval of a license or permit application for an activity on an approved management program list (see §930.53) or individually approved by the Assistant Administrator (see §930.54) pending satisfaction of the requirements of this subpart. Similarly, the existence of a serious disagreement will not prevent the Federal agency from approving a license or permit activity which has not received Assistant Administrator approval.

§ 930.56 State agency guidance and assistance to applicants; information requirements.

(a) As a preliminary matter, any applicant for a Federal license or permit selected for review by a State agency should obtain the views and assistance of that agency regarding the means for ensuring that the proposed activity will be conducted in a manner consistent with the State's management program. As part of its assistance efforts, the State agency shall make available for public inspection copies of the management program document.

(b) The management program as originally approved or amended may describe requirements regarding the data and information necessary to as-

sess the consistency of Federal license and permit activities. Required data and information may not include confidential and proprietary material. In the case of approved amendments, State agencies shall send copies to relevant Federal agencies who shall, in turn, provide the information requirements to applicants. If a State does not choose to develop or amend its management program to include information requirements, the applicant must, at a minimum, supply the State agency with the information required by §930.58.

§ 930.57 Consistency certifications.

(a) When satisfied that the proposed activity meets the Federal Consistency requirements of this subpart, all applicants for Federal licenses or permits subject to State agency review shall provide in the application to the Federal licensing or permitting agency a certification that the proposed activity complies with and will be conducted in a manner consistent with the State's approved management program. At the same time, the applicant shall furnish to the State agency a copy of the certification.

(b) The applicant's consistency certification shall be in the following form:

The proposed activity complies with (name of State) approved coastal management program and will be conducted in a manner consistent with such program.

§ 930.58 Necessary data and information.

(a) The applicant shall furnish the State agency with necessary data and information along with the consistency certification. Such information and data shall include the following:

(1) A detailed description of the proposed activity and its associated facilities which is adequate to permit an assessment of their probable coastal zone effects. Maps, diagrams, technical data and other relevant material must be submitted when a written description alone will not adequately describe the proposal (a copy of the Federal application and all supporting material provided to the Federal agency should also be submitted to the State agency).
