**§ 930.55 Availability of mediation for license or permit disputes.**

In the event of a serious disagreement between a Federal and State agency regarding whether a listed or unlisted Federal license or permit activity is subject to consistency review, either party may request the Secretarial mediation services provided for in subpart G; notice shall be provided to the applicant. The existence of a serious disagreement will not relieve the Federal agency from the responsibility for withholding approval of a license or permit application for an activity on an approved management program list (see § 930.53) or individually approved by the Assistant Administrator (see § 930.54) pending satisfaction of the requirements of this subpart. Similarly, the existence of a serious disagreement will not prevent the Federal agency from approving a license or permit activity which has not received Assistant Administrator approval.

**§ 930.56 State agency guidance and assistance to applicants; information requirements.**

(a) As a preliminary matter, any applicant for a Federal license or permit selected for review by a State agency should obtain the views and assistance of that agency regarding the means for ensuring that the proposed activity will be conducted in a manner consistent with the State's management program. As part of its assistance efforts, the State agency shall make available for public inspection copies of the management program document.

(b) The management program as originally approved or amended may describe requirements regarding the data and information necessary to as-

sess the consistency of Federal license and permit activities. Required data and information may not include confidential and proprietary material. In the case of approved amendments, State agencies shall send copies to relevant Federal agencies who shall, in turn, provide the information requirements to applicants. If a State does not choose to develop or amend its management program to include information requirements, the applicant must, at a minimum, supply the State agency with the information required by § 930.58.

**§ 930.57 Consistency certifications.**

(a) When satisfied that the proposed activity meets the Federal Consistency requirements of this subpart, all applicants for Federal licenses or permits subject to State agency review shall provide in the application to the Federal licensing or permitting agency a certification that the proposed activity complies with and will be conducted in a manner consistent with the State's approved management program. At the same time, the applicant shall furnish to the State agency a copy of the certification.

(b) The applicant's consistency certification shall be in the following form:

The proposed activity complies with (name of State) approved coastal management program and will be conducted in a manner consistent with such program.

**§ 930.58 Necessary data and information.**

(a) The applicant shall furnish the State agency with necessary data and information along with the consistency certification. Such information and data shall include the following:

(1) A detailed description of the proposed activity and its associated facilities which is adequate to permit an assessment of their probable coastal zone effects. Maps, diagrams, technical data and other relevant material must be submitted when a written description alone will not adequately describe the proposal (a copy of the Federal application and all supporting material provided to the Federal agency should also be submitted to the State agency).
