

§ 1007.85

(2) With respect to the pounds of milk described in paragraph (c)(1) of this section that remain after the computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine the shortest hard-surface highway distance between the shipping plant and the receiving plant;

(ii) Multiply the number of miles so determined by 0.35 cent;

(iii) Subtract the applicable Class I differential in §1000.52 for the county in which the shipping plant is located from the Class I differential applicable for the county in which the receiving plant is located;

(iv) Subtract any positive difference computed in paragraph (d)(2)(iii) of this section from the amount computed in paragraph (d)(2)(ii) of this section; and

(v) Multiply the remainder computed in paragraph (d)(2)(iv) of this section by the hundredweight of milk described in paragraph (d)(2) of this section.

(3) For the remaining milk described in paragraph (c)(2) of this section after computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine an origination point for each load of milk by locating the nearest city to the last producer's farm from which milk was picked up for delivery to the receiving pool plant;

(ii) Determine the shortest hard-surface highway distance between the receiving pool plant and the origination point;

(iii) Subtract 85 miles from the mileage so determined;

(iv) Multiply the remaining miles so computed by 0.35 cent;

(v) Subtract the Class I differential specified in §1000.52 applicable for the county in which the origination point is located from the Class I differential applicable at the receiving pool plant's location;

(vi) Subtract any positive difference computed in paragraph (d)(3)(v) of this section from the amount computed in paragraph (d)(3)(iv) of this section; and

(vii) Multiply the remainder computed in paragraph (d)(3)(vi) of this section by the hundredweight of milk described in paragraph (d)(3) of this section.

MIDWEST MARKETING AREA**

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.

1030.1 General provisions.

DEFINITIONS

- 1030.2 Upper Midwest marketing area.
- 1030.3 Route disposition.
- 1030.4 Plant.
- 1030.5 Distributing plant.
- 1030.6 Supply plant.
- 1030.7 Pool plant.
- 1030.8 Nonpool plant.
- 1030.9 Handler.
- 1030.10 Producer-handler.
- 1030.11 [Reserved]
- 1030.12 Producer.
- 1030.13 Producer milk.
- 1030.14 Other source milk.
- 1030.15 Fluid milk product.
- 1030.16 Fluid cream product.
- 1030.17 [Reserved]
- 1030.18 Cooperative association.
- 1030.19 Commercial food processing establishment.

HANDLER REPORTS

- 1030.30 Reports of receipts and utilization.
- 1030.31 Payroll reports.
- 1030.32 Other reports.

CLASSIFICATION OF MILK

- 1030.40 Classes of utilization.
- 1030.41 [Reserved]
- 1030.42 Classification of transfers and diversions.
- 1030.43 General classification rules.
- 1030.44 Classification of producer milk.
- 1030.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

- 1030.50 Class prices, component prices, and advanced pricing factors.
- 1030.51 Class I differential and price.

Agricultural Marketing Service, USDA

§ 1030.7

- 1030.52 Adjusted Class I differentials.
1030.53 Announcement of class prices, component prices, and advanced pricing factors.
1030.54 Equivalent price.
1030.55 Transportation credits and assembly credits.

PRODUCER PRICE DIFFERENTIAL

- 1030.60 Handler's value of milk.
1030.61 Computation of producer price differential.
1030.62 Announcement of producer prices.

PAYMENTS FOR MILK

- 1030.70 Producer-settlement fund.
1030.71 Payments to the producer-settlement fund.
1030.72 Payments from the producer-settlement fund.
1030.73 Payments to producers and to cooperative associations.
1030.74 [Reserved]
1030.75 Plant location adjustments for producer milk and nonpool milk.
1030.76 Payments by a handler operating a partially regulated distributing plant.
1030.77 Adjustment of accounts.
1030.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

- 1030.85 Assessment for order administration.

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1030.1 General provisions.

The terms, definitions, and provisions in part 1000 of this chapter apply to this part 1030. In this part 1030, all references to sections in part 1000 refer to part 1000 of this chapter.

DEFINITIONS

§ 1030.2 Upper Midwest marketing area.

The marketing area means all territory within the bounds of the following states and political subdivisions, including all piers, docks, and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State,

or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed states or political subdivisions:

ILLINOIS COUNTIES

Boone, Carroll, Cook, De Kalb, Du Page, Jo Daviess, Kane, Kendall, Lake, Lee, McHenry, Ogle, Stephenson, Will, and Winnebago.

IOWA COUNTIES

Howard, Kossuth, Mitchell, Winnebago, Winneshiek, and Worth.

MICHIGAN COUNTIES

Delta, Dickinson, Gogebic, Iron, Menominee, and Ontonagon.

MINNESOTA

All counties except Lincoln, Nobles, Pipestone, and Rock.

NORTH DAKOTA COUNTIES

Barnes, Cass, Cavalier, Dickey, Grand Forks, Griggs, La Moure, Nelson, Pembina, Ramsey, Ransom, Richland, Sargent, Steele, Traill, and Walsh.

SOUTH DAKOTA COUNTIES

Brown, Day, Edmunds, Grant, Marshall, McPherson, Roberts, and Walworth.

WISCONSIN COUNTIES

All counties except Crawford and Grant.

§ 1030.3 Route disposition.

See § 1000.3.

§ 1030.4 Plant.

See § 1000.4.

§ 1030.5 Distributing plant.

See § 1000.5.

§ 1030.6 Supply plant.

See § 1000.6.

§ 1030.7 Pool plant.

Pool plant means a plant, unit of plants, or system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant specified in paragraph (h) of this section. The pooling standards described in paragraphs (c) and (f) of this section are subject to modification pursuant to paragraph (g) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or

§ 1030.7

7 CFR Ch. X (1-1-01 Edition)

(§ _____.7b) of any other Federal milk order, from which during the month 15 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 15 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which the quantity of bulk fluid milk products shipped to (and physically unloaded into) plants described in paragraph (c)(1) of this section is not less than 10 percent of the Grade A milk received from dairy farmers (except dairy farmers described in §1030.12(b)) and handlers described in §1000.9(c), including milk diverted pursuant to §1030.13, subject to the following conditions:

(1) Qualifying shipments may be made to plants described in paragraphs (c)(1)(i) through (iv) of this section, except that whenever shipping requirements are increased pursuant to paragraph (g) of this section, only shipments to pool plants described in paragraphs (a), (b), and (e) of this section shall count as qualifying shipments for the purpose of meeting the increased shipments:

(i) Pool plants described in §1030.7(a), (b) and (e);

(ii) Plants of producer-handlers;

(iii) Partially regulated distributing plants, except that credit for such shipments shall be limited to the amount of such milk classified as Class I at the transferee plant; and

(iv) Distributing plants fully regulated under other Federal orders, except that credit for shipments to such plants shall be limited to the quantity shipped to pool distributing plants dur-

ing the month and credits for shipments to other order plants shall not include any such shipments made on the basis of agreed-upon Class II, Class III, or Class IV utilization.

(2) The operator of a supply plant may include as qualifying shipments under this paragraph milk delivered directly from producers' farms pursuant to §§1000.9(c) or 1030.13(c) to plants described in paragraphs (a), (b), and (e) of this section.

(3) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the supply plant's shipping percentage.

(d) [Reserved]

(e) Two or more plants operated by the same handler and located in the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements of a pool distributing plant specified in paragraph (a) of this section and subject to the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process Class I or Class II products, using 50 percent or more of the total Grade A fluid milk products received in bulk form at such plant or diverted therefrom by the plant operator in Class I or Class II products; and

(3) The operator of the unit has filed a written request with the market administrator prior to the first day of the month for which such status is desired to be effective. The unit shall continue from month-to-month thereafter without further notification. The handler shall notify the market administrator in writing prior to the first day of any month for which termination or any change of the unit is desired.

(f) A system of 2 or more supply plants operated by one or more handlers may qualify for pooling by meeting the shipping requirements of paragraph (c) of this section in the same manner as a single plant subject to the following additional requirements:

(1) Each plant in the system is located within the marketing area or was a pool supply plant pursuant to

Agricultural Marketing Service, USDA

§ 1030.7

§1030.7(c) for each of the 3 months immediately preceding the applicability date of this paragraph so long as it continues to maintain pool status. Co-operative associations may not use shipments pursuant to §1000.9(c) to qualify plants located outside the marketing area;

(2) The handler(s) establishing the system submits a written request to the market administrator on or before July 15 requesting that such plants qualify as a system for the period of August through July of the following year. Such request will contain a list of the plants participating in the system in the order, beginning with the last plant, in which the plants will be dropped from the system if the system fails to qualify. Each plant that qualifies as a pool plant within a system shall continue each month as a plant in the system through the following July unless the handler(s) establishing the system submits a written request to the market administrator that the plant be deleted from the system or that the system be discontinued. Any plant that has been so deleted from a system, or that has failed to qualify in any month, will not be part of any system for the remaining months through July. The handler(s) that established a system may add a plant operated by such handler(s) to a system if such plant has been a pool plant each of the 6 prior months and would otherwise be eligible to be in a system, upon written request to the market administrator no later than the 15th day of the prior month. In the event of an ownership change or the business failure of a handler that is a participant in a system, the system may be reorganized to reflect such changes if a written request to file a new marketing agreement is submitted to the market administrator; and

(3) If a system fails to qualify under the requirements of this paragraph, the handler responsible for qualifying the system shall notify the market administrator which plant or plants will be deleted from the system so that the remaining plants may be pooled as a system. If the handler fails to do so, the market administrator shall exclude one or more plants, beginning at the bottom of the list of plants in the sys-

tem and continuing up the list as necessary until the deliveries are sufficient to qualify the remaining plants in the system.

(g) The applicable shipping percentages of paragraphs (c) and (f) of this section and the diversion limits described in §1030.13(d)(2) may be increased or decreased, for all or part of the marketing area, by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping or diversion percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified
