

§ 1126.8

needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

- (1) A producer-handler plant;
- (2) An exempt plant as defined in § 1000.8(e);
- (3) A plant qualified pursuant to paragraph (a) of this section that is located within the marketing area if the plant also meets the pooling requirements of another Federal order, and more than 50 percent of its route distribution has been in such other Federal order marketing area for 3 consecutive months;
- (4) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;
- (5) A plant qualified pursuant to paragraph (a) of this section that is located in another Federal order marketing area if the plant meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;
- (6) A plant qualified pursuant to paragraph (c) or (d) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated

under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a pool plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in writing by the handler and must be approved by the market administrator.

§ 1126.8 Nonpool plant.

See § 1000.8.

§ 1126.9 Handler.

See § 1000.9.

§ 1126.10 Producer-handler.

Producer-handler means a person who:

- (a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;
- (b) Receives fluid milk products from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or another Federal order;
- (c) Receives no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order, including such products received at a location other than the producer-handler's processing plant for distribution on routes. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;
- (d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and
- (e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.
