

§ 1411.203

7 CFR Ch. XIV (1-1-01 Edition)

§ 1411.203 Payment amount.

Subject to the availability of funds, eligible persons can receive a payment under this part. The payment amount shall be equal to the payment rate established under this part multiplied by the producer's payment acreage multiplied, in turn, by the producer's payment yield. The payment rate shall be determined by DAFP after the level of program participation is known with sufficient clarity to allow for the calculation of the amount of payment that can be made, by unit of production, within the limits of the available funds. To the extent practicable, separate payment rates may be established for separate eligible oilseeds. Payments can be made only with respect to the production of eligible oilseeds.

§ 1411.204 Payment acreage.

(a) The oilseed payment acreage for an established producer shall, for a particular oilseed, be the higher of the three acreage amounts determined by calculating, for the 1997, 1998, and 1999 crops separately, the acreage determined to be equal to the producer's acreage for that oilseed at all locations for that crop year, adjusted to reflect interests that are only partial interests in such acreage.

(b) The payment acreage for a new producer of an eligible oilseed will be the producer's acreage for that oilseed for the 2000 crop at all locations, adjusted to reflect interests that are only partial interests in such acreage.

(c) Acreage not planted to an oilseed crop because of weather, or because of crop rotation practices or other management decisions, or because of any other reason, shall not be treated as qualifying production for determining a person's general eligibility for payment, a person's payment acreage, or for any other reason under this part.

[65 FR 36561, June 8, 2000, as amended at 65 FR 65715, Nov. 2, 2000]

§ 1411.205 Payment yield.

(a) For purposes of making yield determinations, under this part and for purposes of this section in particular, a producer's "applicable average yield" shall be, with respect to soybeans, the county average soybean yield. In the

case of other oilseeds, the "applicable average yield" shall, for all persons qualifying for payment, be the national average oilseed yield for that oilseed. National and county average yields may be announced in advance of signup by DAFP.

(b) A new producer's payment yield with respect to a particular eligible oilseed shall be the higher of the:

(1) Applicable average yield for that oilseed or

(2) Producer's actual yield for the 2000 crop year.

(c) For established producers, the producer's payment yield for a particular oilseed shall be the higher of:

(1) Applicable average yield; or

(2) The highest for the 1997, 1998, and 1999 crops of the producer's actual yield respectively for those crop years for all acres of the oilseed planted by the producer.

(d) In making determinations under paragraph (c) of this section for established producers, the choice of a crop year history will not be limited to the same history year chosen to set the producer's payment acres.

(e) Where actual yields are used for purposes of establishing the producer's payment yields, the producer, if subject to a yield spot check or otherwise asked to do so, must document those actual yields using form FSA-658 and must establish those yields to the satisfaction of the county committee.

(f) In making yield determinations, the producer's yields and payments may be adjusted by DAFP and the county and state committees, as necessary and practicable to reflect instances in which the producer has different yields at different locations and to reflect partial interests that the producer may have in some acreages.

[65 FR 36561, June 8, 2000, as amended at 65 FR 65715, Nov. 2, 2000]

Subpart C—Application for Payment

§ 1411.301 Signup period.

A signup period shall be announced by the Secretary. Late-filed applications shall not be accepted so that DAFP may establish, to the extent practicable, a final payment rate that
