

Agricultural Marketing Service, USDA

§ 29.9404

29.1(d), on a designated market, as defined in 7 CFR 29.1(e).

[39 FR 17754, May 20, 1974, as amended at 40 FR 31592, July 28, 1975]

§ 29.9402 Policy statement.

The sets of inspectors available to serve the flue-cured marketing areas are currently adequate to provide inspection service as rapidly as tobacco can be purchased, handled and processed by the currently existing facilities of the buyers, and the lack of inspection personnel is not a limiting factor to accelerated marketings or the extension of price support to producers. The sets of buyers assigned to the flue-cured markets by the buying industry are adequate to purchase tobacco as rapidly as it can be handled and processed by the buyers' facilities. However, the tobacco ready for marketing during most weeks of the marketing season substantially exceeds the quantities which can be purchased, handled and processed by the currently existing facilities of the buyers. Moreover, the total number of flue-cured markets are substantially greater than the number of sets of buyers assigned by the buying companies or the number of sets of available inspectors. In this situation, about 6 months is required to market a year's crop of flue-cured tobacco and all warehouses cannot be served at the same time by the available sets of inspectors and the sets of buyers assigned by the buying companies. As additional sets of inspectors would not relieve the situation, inspection service will be provided by assigning the available inspectors to the various marketing areas and to warehouses within the marketing areas in a manner determined by the Secretary to provide the best and most equitable service to all growers.

§ 29.9403 Flue-Cured Tobacco Advisory Committee.

(a) To assist the Secretary in making the apportionment and assignment of inspectors, a Flue-Cured Tobacco Advisory Committee, appointed in accordance with the Federal Advisory Committee Act (5 U.S.C. Appendix I), shall advise and recommend to the Secretary marketing area opening dates and selling schedules for both designated and

undesigned flue-cured tobacco to be sold in each marketing area and in each warehouse within each marketing area.

(b) The Committee shall consist of 39 representatives and 39 alternates of the flue-cured industry—21 producers, 10 warehousemen, and 8 buyers.

(c) Recommendations to the Secretary or producer membership on the Committee will be received from the following organizations: one each from the Florida Farm Bureau, the South Carolina Grange, and the Tobacco Growers Association of North Carolina, Inc., two each from the Georgia Farm Bureau, the South Carolina Farm Bureau, and the Virginia Farm Bureau, four from the North Carolina Grange, and eight from the North Carolina Farm Bureau.

(d) Recommendations of the 10 warehouse representatives shall be received from the various belt warehouse associations.

(e) Recommendations for the eight buyer representatives shall be received: five from the Tobacco Association of the United States and one each from Philip Morris, Inc., P. Lorillard Co. and R. J. Reynolds Tobacco Co.

§ 29.9404 Marketing area opening dates and marketing schedules.

(a) The Flue-Cured Tobacco Advisory Committee shall recommend, to the Secretary, marketing areas in the flue-cured tobacco production area and marketing area opening dates and selling schedules for both designated and undesigned tobacco for each marketing area and for the individual warehouses in each marketing area, which specify the length of time inspectors will be available to inspect designated tobacco and undesigned tobacco and/or the quantity of designated or undesigned tobacco to be marketed in each area and through each warehouse within such marketing area. In developing such opening date and selling schedules, the Committee shall take into account the following:

(1) When a sufficient volume of tobacco produced within a specific area
