§ 330.211 Labelling of plant pests for movement under permits.

(a) *Interstate movement.* For interstate movements of plant pests a label shall be attached to each parcel containing the pests as evidence that the movement of the plant pests is authorized. Such label shall also disclose the contents of the parcel.

(b) *Movement into or through the United States from places outside thereof by mail or cargo.* (1) When a permit authorizing the movement of plant pests into the United States from any place outside thereof is issued to an applicant under this part, it will be accompanied by distinctive labels, with instructions for their use by the foreign shipper. Such labels will be issued in quantity sufficient to permit attaching one to each parcel to be moved. The labels will direct the parcels to specified inspection stations of the Plant Protection and Quarantine Programs, or other designated points, for clearance. The stations will be notified by the Deputy Administrator in advance of the expected arrival of the plant pests. Plant pests so moved by mail may be refused entry unless the containers thereof bear such labels. Cargo shipments of plant pests so moved may be refused entry unless they bear such labels or are otherwise plainly marked to identify the contents.

(2) Any labelling requirements with respect to the movement of plant pests through the United States will be included in shipping instructions issued as conditions of the permits.

(c) *Misuse of labels.* No labels unused in accordance with the terms of the permit may be used for the movement of any other plant pest. The Federal Plant Pest Act provides a penalty² for the misuse of labels under this part. Any unauthorized movement of plant pests under a label shall be refused by the inspector, and the plant pests so moved may be destroyed or otherwise dealt with as set out in § 330.106 if deemed necessary as an emergency measure under that section.
