

§ 3406.12

which provide students with opportunities to solve complex problems in the context of real-world situations. Effective experiential learning is essential in preparing future graduates to advance knowledge and technology, enhance quality of life, conserve resources, and revitalize the Nation's economic competitiveness. Such experiential learning opportunities are most effective when they serve to advance decision-making and communication skills as well as technological expertise.

(2) Examples include, but are not limited to, projects which:

(i) Provide opportunities for students to participate in research projects, either as a part of an ongoing research project or in a project designed especially for this program.

(ii) Provide opportunities for students to complete apprenticeships, internships, or similar participatory learning experiences.

(iii) Expand and enrich courses which are of a practicum nature.

(iv) Provide career mentoring experiences that link students with outstanding professionals.

(f) *Student recruitment and retention.*

(1) The purpose of this need area is to strengthen student recruitment and retention programs in order to promote the future strength of the Nation's scientific and professional work force. The Nation's economic competitiveness and quality of life rest upon the availability of a cadre of outstanding research scientists, university faculty, and other professionals in the food and agricultural sciences. A substantial need exists to supplement efforts to attract increased numbers of academically outstanding students to prepare for careers as food and agricultural scientists and professionals. It is particularly important to augment the racial, ethnic, and gender diversity of the student body in order to promote a robust exchange of ideas and a more effective use of the full breadth of the Nation's intellectual resources.

(2) Each student recipient of monetary support for education costs or developmental purposes under §3406.11(f) must be enrolled at an eligible institution and meet the requirement of an

7 CFR Ch. XXXIV (1-1-01 Edition)

“eligible participant” as defined in §3406.2 of this part.

(3) Examples include, but are not limited to:

(i) Special outreach programs for elementary and secondary students as well as parents, counselors, and the general public to broaden awareness of the extensive nature and diversity of career opportunities for graduates in the food and agricultural sciences.

(ii) Special activities and materials to establish more effective linkages with high school science classes.

(iii) Unique or innovative student recruitment activities, materials, and personnel.

(iv) Special retention programs to assure student progression through and completion of an educational program.

(v) Development and dissemination of stimulating career information materials.

(vi) Use of regional or national media to promote food and agricultural sciences higher education.

(vii) Providing financial incentives to enable and encourage students to pursue and complete an undergraduate or graduate degree in an area of the food and agricultural sciences.

§ 3406.12 Program application materials—teaching.

Program application materials in an application package will be made available to eligible institutions upon request. These materials include the program announcement, the administrative provisions for the program, and the forms needed to prepare and submit teaching grant applications under the program.

§ 3406.13 Content of a teaching proposal.

(a) *Proposal cover page.* (1) Form CSREES-712, “Higher Education Proposal Cover Page,” must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the CSREES information system and will assist in the processing of the proposal.

(2) One copy of the Form CSREES-712 must contain the pen-and-ink signatures of the project director(s) and authorized organizational representative for the applicant institution.
