

4. All barley acreage in the county planted to an approved malting variety in which you have a share, will be insured under this option ("Malting Barley"). All barley acreage of any non-malting variety will be insured under the terms of the Basic Policy ("Basic Barley"). Malting barley and basic barley acreage will be separate units. Further unit division may be allowed in accordance with the provisions of the basic policy.
5. You must elect the highest price election provided for basic barley.
6. Your premium rate for malting barley will be provided by the actuarial table.
7. In lieu of section 7.b. (1) and (2) of the Barley Endorsement:
 - a. Mature malting barley production which otherwise is not eligible for quality adjustment will be reduced .12 percent for each one tenth (.1) percentage point of moisture in excess of 13.0 percent; or
 - b. Mature malting barley production, which due to insurable causes, is not accepted by a buyer of malting barley and will not meet the applicable standards for two-rowed or six-rowed malting barley (see §10.a.), will be adjusted by:
 - (1) Dividing the value per bushel for the insured malting barley (see 10.d.) by the price election for malting barley; and
 - (2) Multiplying the result (not to exceed one (1.0)) by the number of bushels of such barley.
 - c. All grade determinations must be made by a grader licensed to grade barley under the United States Grain Standards Act from samples obtained by a licensed sampler or our loss adjuster. Any production which is not sampled and graded as provided by this section will be considered as malting barley meeting the applicable standards.
8. All provisions of the basic policy not in conflict with this option are applicable.
9. Contract changes will be available at your service office by September 1 preceding the cancellation date.
10. As used in this option:
 - a. *Applicable standards* for two-rowed and six-rowed malting barley are defined in the Official United States Grain Standards.
 - b. *Approved malting variety* means the varieties specified in the actuarial table or approved in writing by us.
 - c. *Buyer* means any business enterprise regularly engaged in the malting of barley or brewing of malt beverages for human consumption, or its representative which is authorized to engage in the purchase of malting barley on behalf of or for sale to the malting or brewing company.

d. *Value per bushel* for the insured malting barley means;

(1) The local market price of U.S. No. 2 barley (basic barley) if the insured mature malting barley production, due to insurable causes, has a test weight of at least 40 pounds per bushel and, as determined by a grain grader licensed by the Federal Grain Inspection Service or licensed under the United States Warehouse Act, contains more than 85 percent sound barley; less than 8 percent damaged kernels; less than 35 percent thin barley; less than 5 percent black barley; and does not grade smutty, garlicky, or ergoty; or

(2) The local market price of basic barley of the same quality as the insured malting barley, if the malting barley does not meet all the standards in §10.d.(1).

The local market price for basic barley as identified in §10.d.(1) and (2) above will be the price on the earlier of the day the loss is adjusted or the day the insured barley is sold.
