

## RBS and RUS, USDA

## § 4279.131

(a) A variable interest rate agreed to by the lender and borrower must be a rate that is tied to a base rate agreed to by the lender and the Agency. The variable interest rate may be adjusted at different intervals during the term of the loan, but the adjustments may not be more often than quarterly and must be specified in the Loan Agreement. The lender must incorporate, within the variable rate Promissory Note at loan closing, the provision for adjustment of payment installments coincident with an interest-rate adjustment. The lender will ensure that the outstanding principal balance is properly amortized within the prescribed loan maturity to eliminate the possibility of a balloon payment at the end of the loan.

(b) Any change in the interest rate between the date of issuance of the Conditional Commitment and before the issuance of the Loan Note Guarantee must be approved in writing by the Agency approval official. Approval of such a change will be shown as an amendment to the Conditional Commitment.

(c) It is permissible to have one interest rate on the guaranteed portion of the loan and another rate on the unguaranteed portion of the loan provided that the rate on the guaranteed portion does not exceed the rate on the unguaranteed portion.

(d) A combination of fixed and variable rates will be allowed.

### § 4279.126 Loan terms.

(a) The maximum repayment for loans on real estate will not exceed 30 years; machinery and equipment repayment will not exceed the useful life of the machinery and equipment purchased with loan funds or 15 years, whichever is less; and working capital repayment will not exceed 7 years. The term for a loan that is being refinanced may be based on the collateral the lender will take to secure the loan.

(b) The first installment of principal and interest will, if possible, be scheduled for payment after the project is operational and has begun to generate income. However, the first full installment must be due and payable within 3 years from the date of the Promissory Note and be paid at least annually

thereafter. Interest-only payments will be paid at least annually from the date of the note.

(c) Only loans which require a periodic payment schedule which will retire the debt over the term of the loan without a balloon payment will be guaranteed.

(d) A loan's maturity will take into consideration the use of proceeds, the useful life of assets being financed, and the borrower's ability to repay the loan. The lender may apply the maximum guidelines specified above only when the loan cannot be repaid over a shorter term.

(e) All loans guaranteed through the B&I program must be sound, with reasonably assured repayment.

### §§ 4279.127–4279.130 [Reserved]

### § 4279.131 Credit quality.

The lender is primarily responsible for determining credit quality and must address all of the elements of credit quality in a written credit analysis including adequacy of equity, cash flow, collateral, history, management, and the current status of the industry for which credit is to be extended.

(a) *Cash flow.* All efforts will be made to structure or restructure debt so that the business has adequate debt coverage and the ability to accommodate expansion.

(b) *Collateral.* (1) Collateral must have documented value sufficient to protect the interest of the lender and the Agency and, except as set forth in paragraph (b)(2) of this section, the discounted collateral value will be at least equal to the loan amount. Lenders will discount collateral consistent with sound loan-to-value policy.

(2) Some businesses are predominantly cash-flow oriented, and where cash flow and profitability are strong, loan-to-value coverage may be discounted accordingly. A loan primarily based on cash flow must be supported by a successful and documented financial history.

(c) *Industry.* Current status of the industry will be considered and businesses in areas of decline will be required to provide strong business plans which outline how they differ from the

current trends. The regulatory environment surrounding the particular business or industry will be considered.

(d) *Equity.* A minimum of 10 percent tangible balance sheet equity will be required for existing businesses at the time the Loan Note Guarantee is issued. A minimum of 20 percent tangible balance sheet equity will be required for new businesses at the time the Loan Note Guarantee is issued. Tangible balance sheet equity will be determined in accordance with Generally Accepted Accounting Principles. Modifications to the equity requirements may be granted by the Administrator or designee. For the Administrator to consider a reduction in the equity requirement, the borrower must furnish the following:

(1) Collateralized personal and corporate guarantees, including any parent, subsidiary, or affiliated company, when feasible and legally permissible (in accordance with 4279.149 of this subpart), and

(2) Pro forma and historical financial statements which indicate the business to be financed meets or exceeds the median quartile (as identified in Robert Morris Associates Annual Statement Studies or similar publication) for the current ratio, quick ratio, debt-to-worth ratio, debt coverage ratio, and working capital.

(e) *Lien priorities.* The entire loan will be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the loan will neither be paid first nor given any preference or priority over the guaranteed portion. A parity or junior position may be considered provided that discounted collateral values are adequate to secure the loan in accordance with paragraph (b) of this section after considering prior liens.

(f) *Management.* A thorough review of key management personnel will be completed to ensure that the business has adequately trained and experienced managers.

§§ 4279.132–4279.136 [Reserved]

§ 4279.137 Financial statements.

(a) The lender will determine the type and frequency of submission of fi-

nancial statements by the borrower. At a minimum, annual financial statements prepared by an accountant in accordance with Generally Accepted Accounting Principles will be required.

(b) If specific circumstances warrant and the proposed guaranteed loan will exceed \$3 million, the Agency may require annual audited financial statements. For example, the need for audited financial statements will be carefully considered in connection with loans that depend heavily on inventory and accounts receivable for collateral.

§§ 4279.138–4279.142 [Reserved]

§ 4279.143 Insurance.

(a) *Hazard.* Hazard insurance with a standard mortgage clause naming the lender as beneficiary will be required on every loan in an amount that is at least the lesser of the depreciated replacement value of the collateral or the amount of the loan. Hazard insurance includes fire, windstorm, lightning, hail, explosion, riot, civil commotion, aircraft, vehicle, marine, smoke, builder's risk during construction by the business, and property damage.

(b) *Life.* The lender may require life insurance to insure against the risk of death of persons critical to the success of the business. When required, coverage will be in amounts necessary to provide for management succession or to protect the business. The cost of insurance and its effect on the applicant's working capital must be considered as well as the amount of existing insurance which could be assigned without requiring additional expense.

(c) *Worker compensation.* Worker compensation insurance is required in accordance with State law.

(d) *Flood.* National flood insurance is required in accordance with 7 CFR, part 1806, subpart B (FmHA Instruction 426.2, available in any field office or the National Office).

(e) *Other.* Public liability, business interruption, malpractice, and other insurance appropriate to the borrower's particular business and circumstances will be considered and required when needed to protect the interests of the borrower.
