### Subpart A—General Provisions

#### § 614.1 Purpose and scope.

This part sets forth the informal procedures under which a landowner or program participant may appeal adverse technical determinations or decisions made by officials of the Natural Resources Conservation Service (NRCS) or its successor agency.

#### § 614.2 Definitions.

*Adverse technical determination or decision* includes, in addition to the definition of adverse decision in 7 CFR part 11, an NRCS technical determination or decision that affects the legal substantive status of the land, though it may not necessarily be adverse.

*Chief* means the Chief of NRCS. For the purposes of this part, the term “Chief” includes an official of NRCS national headquarters designated by the Chief to act for the Chief in making decisions under this part.

*Conservation district* means any district or unit of State or local government formed under State law or territorial law for the express purpose of developing and carrying out a local soil and water conservation program. Such district or unit of government may be referred to as a conservation district, soil conservation district, soil and water conservation district, natural resource district, land conservation committee, or a similar name.

*County committee* means a Farm Service Agency (FSA) county or area committee established in accordance with section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)).

*Decision* means a conclusion reached by an NRCS official based on applicable regulations and program instructions which relates to eligibility for program benefits, including a technical

determination used as a basis for the decision.

*Designated conservationist* means the NRCS official, usually the district conservationist, whom the State Conservationist designates to be responsible for the program or compliance requirement to which this part is applicable.

*Mediation* means a process in which a neutral third party, the mediator, meets with the disputing parties (e.g., the landowner or program participant and the agency), facilitates discussions, and works with the parties to resolve their disputes, narrow areas of disagreement, and improve communications and relationships. A mediator has no authority to render a decision or determination.

*Preliminary technical determination* means the initial written technical determination provided to a client which will become final after 30 days unless the client takes action in accordance with § 614.101 to stay the preliminary technical determination from becoming final.

*State Conservationist* means the NRCS official in charge of NRCS operations within a State, as set forth in part 600 of this chapter.

*Technical determination* means a conclusion concerning the status and condition of the natural resources and cultural practices based on science and best professional judgment of natural resource professionals concerning the soils, water, air, plants, and animals.

Refer to 7 CFR 11.1 for other definitions applicable to appeals of adverse technical determinations and decisions covered by this part.

#### § 614.3 Applicability.

(a) Appeals of adverse technical determinations and adverse decisions covered by this part are also governed by National Appeals Division (NAD) regulations at 7 CFR part 11.

(b) Decisions which are subject to this part include any decision under one or more NRCS programs; and technical determinations or decisions that affect the status of the land even though they may not affect the landowner's or program participant's eligibility for USDA program benefits.
