

Farm Service Agency, USDA

§ 723.201

(h) The 2000-crop national marketing quota is 12.75 million pounds.

[58 FR 36857, July 9, 1993, as amended at 59 FR 27220, May 26, 1994; 60 FR 38234, July 26, 1995; 61 FR 63702, Dec. 2, 1996; 62 FR 43922, Aug. 18, 1997; 64 FR 15295, Mar. 31, 1999; 65 FR 41556, July 6, 2000; 65 FR 64594, Oct. 30, 2000]

§ 723.116 Sun-cured (type 37) tobacco.

(a) The 1993-crop national marketing factor is 128,000 pounds.

(b) The 1994-crop national marketing quota is 131,000 pounds.

(c) The 1995-crop national marketing quota is 130,000 pounds.

(d) The 1996-crop national marketing quota is 148,000 pounds.

(e) The 1997-crop national marketing quota is 156,400 pounds.

(f) The 1998-crop national marketing quota is 163,000 pounds.

(g) The 1999-crop national marketing quota is 171,000 pounds.

(h) The 2000-crop national marketing quota is 171,000 pounds.

[58 FR 36857, July 9, 1993, as amended at 59 FR 27220, May 26, 1994; 60 FR 38234, July 26, 1995; 61 FR 63702, Dec. 2, 1996; 62 FR 43922, Aug. 18, 1997; 64 FR 15295, Mar. 31, 1999; 65 FR 41556, July 6, 2000; 65 FR 64594, Oct. 30, 2000]

§ 723.117 Cigar-filler and binder (types 42–44 and 53–55) tobacco.

(a) The 1993-crop national marketing quota is 14 million pounds.

(b) The 1994-crop national marketing quota is 9.3 million pounds.

(c) The 1995-crop national marketing quota is 9.0 million pounds.

(d) The 1996-crop national marketing quota is 8.9 million pounds.

(e) The 1997-crop national marketing quota is 8.4 million pounds.

(f) The 1998-crop national marketing quota is 6.63 million pounds.

(g) The 1999-crop national marketing quota is 4.5 million pounds.

(h) The 2000-crop national marketing quota is 3.64 million pounds.

[58 FR 36857, July 9, 1993, as amended at 59 FR 27220, May 26, 1994; 60 FR 38234, July 26, 1995; 61 FR 63702, Dec. 2, 1996; 62 FR 43922, Aug. 18, 1997; 64 FR 15295, Mar. 31, 1999; 65 FR 41556, July 6, 2000; 65 FR 64594, Oct. 30, 2000]

§ 723.118 Cigar-filler (type 46) tobacco.

(a) The 1993-crop national marketing quota is zero pounds.

(b) The 1994-crop national marketing quota is zero pounds.

(c) The 1995-crop national marketing quota is 0.0 million pounds.

(d) There shall be no national or individual marketing quotas for the 1996 and subsequent marketing years for this type (46).

[58 FR 36857, July 9, 1993, as amended at 59 FR 27220, May 26, 1994; 60 FR 38234, July 26, 1995; 61 FR 63702, Dec. 2, 1996]

§§ 723.119–723.121 [Reserved]

Subpart B—Allotments, Quotas, Yields, Transfers, Release and Reapportionment, History Acreages, and Forfeitures

§ 723.201 Determination of preliminary farm acreage allotments and preliminary farm marketing quotas.

(a) *Flue-cured tobacco.* A preliminary farm acreage allotment shall be determined for the current year for each farm which has flue-cured tobacco history acreage for the base period. The preliminary farm acreage allotment shall be the same as the farm acreage allotment established for the preceding year.

(b) *Burley tobacco.* The preceding year's farm marketing quota shall be the current year's preliminary farm marketing quota for each old farm except that the preliminary farm marketing quota shall be zero if:

(1) The farm or all of cropland has gone out of agricultural production and eminent domain procedure of part 718 of this chapter does not apply.

(2) Quota that was pooled under the provisions of part 718 of this chapter has been canceled.

(3) A new farm quota that was established in a prior year is canceled.

(4) There was no acreage of burley tobacco planted or considered planted for any year of the base period.

(5) All the cropland on the farm has been determined by the county FSA committee to be no longer suitable for the production of a crop and provisions of part 704 of this chapter do not apply.

(6) Beginning with the 1994 crop year there was no acreage of burley tobacco planted or considered planted in 2 out of the 3 immediate preceding years.

§ 723.202

(c) *Kinds of tobacco other than flue-cured and burley.* A preliminary farm acreage allotment shall be determined for each farm which has tobacco history acreage, as established under paragraph § 723.218 of this part in the base period. If the history acreage for the previous year is the same as the basic allotment, the preliminary allotment shall be the same as the previous year's basic allotment. Otherwise, the preliminary allotment shall be the simple average of the sum of the basic allotment and history acreage for the preceding year.

[55 FR 39914, Oct. 1, 1990, as amended at 56 FR 21441, May 9, 1991]

§ 723.202 Determining farm acreage allotment, except for flue-cured tobacco.

With respect to each kind of tobacco, the preliminary allotments determined for all old farms shall be adjusted uniformly so that the total of such allotments for old farms plus the reserve acreage available for establishing new farm allotments, adjusting inequities in acreage allotments for old farms, and for correcting errors in old farm allotments shall not exceed the national acreage allotment established for such kind of tobacco.

§ 723.203 Determination of flue-cured tobacco preliminary farm yields.

(a) *Old farms.* The preliminary farm yield for a flue-cured tobacco old farm for the current year shall be determined as follows:

(1) *Farm having preliminary farm acreage allotment.* The preliminary farm yield established for the farm shall be the same preliminary farm yield as was in effect for the preceding year.

(2) *Farm not having preliminary farm acreage allotment.* The preliminary farm yield shall be determined by dividing the farm yield by the national yield factor.

(b) *New Farms.* The preliminary farm yield for a new farm shall be determined by dividing the farm yield determined in accordance with § 723.204 of this part for such farm by the national yield factor applicable for the year in which the new farm allotment was established.

7 CFR Ch. VII (1-1-01 Edition)

§ 723.204 Determination of farm yields and normal yields.

(a) *Flue-cured tobacco.* The farm yield for an old farm shall be determined by multiplying the preliminary farm yield, if the farm has such a yield, by the national yield factor for the current year. The farm yield for new farms and old farms that do not have a preliminary yield shall be that yield, which the county FSA committee determines for the farm taking into consideration:

(1) The soil and other physical factors affecting the production of tobacco on the farm, and

(2) The farm yields determined for other farms on which the soil and other physical factors affecting the production of tobacco are similar.

(b) *Burley tobacco.* The farm yield for a farm on which a farm yield has been established shall be the same in the current year as the farm yield previously established for the farm. For any farm not having a previously established yield, the county FSA committee shall establish a yield based on similar farms having a farm yield; however, such yield shall not exceed 3500 pounds.

(c) *All kinds of tobacco except burley and flue-cured.* The normal yield for a farm shall be that yield which the county FSA committee determines is normal for the farm taking into consideration the yields obtained on the farm during any of the years of the base period for which data are available, the soil and other physical factors affecting the production of tobacco on the farm, and the yields obtained on other farms in the locality which are similar with respect to such factors. The normal yield first determined for a farm for any year in accordance with the foregoing provision shall serve as the normal yield for the farm for all purposes in connection with the tobacco marketing program for the year for which such normal yield is determined.

§ 723.205 Determination of farm acreage allotments and effective farm acreage allotments for flue-cured tobacco.

(a) *Farm acreage allotments.* The farm acreage allotment shall be determined by multiplying the national acreage
