§ 929.148 State average yield.

The State average yield pursuant to section 929.48(a)(5)(ii) is defined as the yield per State for the year 1997 or the best four years out of the last six years whichever is greater. § 929.149 Determination of sales history

A sales history for each grower shall be computed by the Committee. For growers with five years of sales history, a sales history shall be computed using an average of the highest 4 years of sales. For growers with six or more years of sales history, a sales history shall be computed using an average of the highest four of the most recent six years of sales. If these growers also have newer acreage with four years of sales history or less, and such growers can provide the Committee with credible information which would allow the Committee to segregate the sales history of the newer acreage, then that acreage shall be treated in the same manner as acreage of a grower with four years or less of sales history. For a grower with four years or less of sales history, the sales history shall be com-

puted using the highest sales season. Sales history for new acreage with no history of sales (for both new and existing growers) shall be computed according to § 929.48 of the order.

During the existence of such indebtedness no further transfer or assignment of sales history by the sales history holder shall be recognized by the committee unless the lender agrees thereto: Provided, That a copy of such loan agreement or assignment shall be filed with the committee before any right expressed therein, with regard to the sales history, shall be recognized by the committee under this paragraph (a).

(b) This regulation shall not in any way be construed to affect the right of the Secretary of Agriculture to amend, modify or terminate this regulation, or the marketing order under which it is issued as provided by law.
