shall be equal to the sum of the products obtained by multiplying each of the following quantities, as applicable, by the restricted percentage:

(1) The quantity of screened cranberries acquired;

(2) The quantity of screened cranberries obtained at the time unscreened lots of cranberries are screened: *Provided*, That, if the cranberries have not been screened by a date specified by the committee, with the approval of the Secretary, as the date by which each handler shall have met the withholding requirement, the quantity of screened cranberries shall be determined as set forth in paragraph (a)(3) of this section; and

(3) The quantity of screened cranberries contained in unscreened lots of cranberries acquired (i) which are destined for disposition without screening, or (ii) but which have not been screened prior to the date referred to in paragraph (a)(2) of this section. The committee, with the approval of the Secretary, shall prescribe uniform rules to be followed in determining the quantity of screened cranberries in each lot of unscreened cranberries.

(b) The committee, with the approval of the Secretary, shall prescribe the manner in which, and date or dates during the fiscal period by which, handlers shall have complied with the withholding requirements specified in paragraph (a) of this section.

(c) Withheld cranberries shall meet such standards of grade, size, quality, or condition as the committee, with the approval of the Secretary, may prescribe. A certificate of such inspection shall be issued which shall show, among other things, the name and address of the handler, the number and type of containers in the lot, the location where the lot is stored, identification marks, including lot stamp, if used, and a certification of the quantity of cranberries in such lot that meet the prescribed standards. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee at the place designated by the committee a copy of the certificate of
