

Agricultural Marketing Service, USDA

§ 930.42

cover the administrative costs of the Board, costs of inspection, and any research, development and promotion activities initiated by the Board under § 930.48.

(b) Each part of an assessment intended to cover the costs of each activity in paragraph (a) of this section, must be identified and approved by the Board and the Secretary, and any notification or other statement regarding assessments provided to handlers must contain such information.

(c) As a pro rata share of the administrative, inspection, research, development, and promotion expenses which the Secretary finds reasonable and likely to be incurred by the Board during a fiscal period, each handler shall pay to the Board assessments on all cherries handled, as the handler thereof, during such period: *Provided*, a handler shall be exempt from any assessment on the tonnage of handled cherries that are diverted according to § 930.59 which includes cherries represented by grower diversion certificates issued pursuant to § 930.58(b) and acquired by handlers and those cherries devoted to exempt uses under § 930.62.

(d) The Secretary, after consideration of the recommendation of the Board, shall fix the rate of assessment to be paid by each handler during the fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be approved and incurred during such period or subsequent period as provided in paragraph (c) of this section. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cherries handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments, the Board may accept the payment of assessments in advance, and may borrow money for such purposes.

(e) Assessments not paid within a time prescribed by the Board may be made subject to interest or late pay-

ment charges, or both. The period of time, rate of interest, and late payment charge will be as recommended by the Board and approved by the Secretary: *Provided*, That when interest or late payment charges are in effect, they shall be applied to all assessments not paid within the prescribed period of time.

(f) Assessments will be calculated on the basis of pounds of cherries handled: *Provided*, That the formula adopted by the Board and approved by the Secretary for determining the rate of assessment will compensate for differences in the number of pounds of cherries utilized for various cherry products and the relative market values of such cherry products.

(g) The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

§ 930.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the Board, with the approval of the Secretary, may carry over all or any portion of such excess into subsequent fiscal periods as a reserve. Such reserve funds may be used to cover any expenses authorized by this part, and to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to the handlers from whom the excess was collected. Without an additional reserve level approved by the Secretary, the amount held in reserve may not exceed approximately one year's operational expenses. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such a manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the Board pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any

§ 930.44

time require the Board and its members to account for all receipts and disbursements.

QUALITY CONTROL

§ 930.44 Quality control.

(a) *Quality standards.* The Board may establish, with the approval of the Secretary, such minimum quality and inspection requirements applicable to cherries as will contribute to orderly marketing or be in the public interest. If such requirements are adopted, no handler shall process cherries into manufactured products or sell manufactured products in the current of commerce unless such cherries and/or such cherries used in the manufacture of products meet the applicable requirements as evidenced by certification acceptable to the Board. The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

(b) *Inspection and certification.* Whenever the handling of any cherries requires inspection pursuant to this part, each handler who handles cherries shall cause such cherries to be inspected by the appropriate division of USDA, and certified by it as meeting the applicable requirements of such regulation: *Provided,* That inspection and certification shall be required for cherries which previously have been so inspected and certified only if such cherries have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the Board a copy of the certificate of inspection issued with respect to such cherries.

RESEARCH, MARKET DEVELOPMENT AND PROMOTION

§ 930.48 Research, market development and promotion.

The Board, with the approval of the Secretary, may establish or provide for the establishment of production and processing research, market research and development, and/or promotional activities, including paid advertising, designed to assist, improve or promote the efficient production and proc-

7 CFR Ch. IX (1-1-01 Edition)

essing, marketing, distribution, and consumption of cherries subject to this part. The expense of such projects shall be paid from funds collected pursuant to this part and the income from such funds.

REGULATIONS

§ 930.50 Marketing policy.

(a) *Optimum Supply.* On or about July 1 of each crop year, the Board shall hold a meeting to review sales data, inventory data, current crop forecasts and market conditions in order to establish an optimum supply level for the crop year. The optimum supply volume shall be calculated as 100 percent of the average sales of the prior three years to which shall be added a desirable carryout inventory not to exceed 20 million pounds or such other amount as the Board, with the approval of the Secretary may establish. This optimum supply volume shall be announced by the Board in accordance with paragraph (h) of this section.

(b) *Preliminary percentages.* On or about July 1 of each crop year, the Board shall establish a preliminary free market tonnage percentage which shall be calculated as follows: From the optimum supply computed in paragraph (a) of this section, the Board shall deduct the carryin inventory to determine the tonnage requirements (adjusted to a raw fruit equivalent) for the current crop year which will be subtracted by the current year USDA crop forecast. If the resulting number is positive, this would represent the estimated over-production which would need to be the restricted percentage tonnage. This restricted percentage tonnage would then be divided by the sum of the USDA crop forecast for the regulated districts to obtain the percentages for the regulated districts. The Board shall establish a preliminary restricted percentage equal to the quotient, rounded to the nearest whole number, with the compliment being the preliminary free tonnage percentage. If subtracting the current crop year requirement, computed in the first sentence from the current USDA crop forecast, results in a negative number, the Board shall establish a preliminary free tonnage of 100 percent
