

grade in quality during storage for reasons within his control, shall be the latest weighted average price received by the Committee for the applicable varietal type of reserve pool raisins, less the amount actually received by the Committee in the disposition of the deteriorated raisins delivered by the handler (or the salvage value of such raisins as determined by the Committee). Any amounts paid to the Committee in satisfaction of such deficiencies shall accrue to the earnings of the applicable reserve pool. The remedies provided in this paragraph shall be in addition to, and not exclusive of, any or all of the remedies or penalties prescribed in the act for failure on the part of the handler to comply with the applicable provisions of the act or of this part.

(d) *Disposition of reserve tonnage raisins which become off-grade for causes beyond the handler's control.* Any reserve tonnage raisins held by or for the account of the Committee which become off-grade for reasons beyond the handler's control shall, at the Committee's discretion, be reconditioned or disposed of by the Committee, or under the Committee's control, in eligible non-normal outlets. Any monetary loss sustained in the reconditioning or disposition of such raisins, not covered by insurance carried by the Committee, shall be charged to the applicable reserve pool.

(e) *Offers of reserve tonnage raisins to handlers for sale in export.* Whenever the Committee offers reserve tonnage raisins to handlers for sale in export, it shall specify in addition to the normal contract terms and conditions, the total quantity, the price and period within which each handler will be permitted to purchase his share of the offer. Whenever a handler's share of an offer is less than, or exceeds, his holding of reserve tonnage raisins by not more than 10 tons, the Committee may adjust his share so as to avoid the cost involved in the physical transfer of raisins. If, prior to the expiration of the offer period, a handler desires to obtain reserve tonnage in an amount greater than that represented by his share of the offer, he may negotiate with another handler for any unpurchased portion of the other handler's share of an

outstanding offer. No such transaction shall be deemed to reduce the transferring handler's share or to increase the transferee handler's share so as to affect either handler's share privileges in subsequent offers. Transfers to implement such transactions between handlers shall be permitted by the Committee only upon receipt of written authorization, on a form furnished by the Committee, by the transferring handler. All limitations applicable to the transferred tonnage shall continue to apply. Such reserve tonnage raisins will be released by the Committee to the transferee handler upon submission of his completed application and full payment for such raisins, and such transferee handler shall be responsible to the Committee for all documentation required in connection with the transaction. All such transfers shall be made at the expense of the handlers concerned.

§989.167 Disposal of reserve raisins.

(a) *Offer of reserve tonnage raisins for use in noncompetitive outlets.* Whenever the Committee proposes to offer to sell standard reserve tonnage raisins in noncompetitive outlets pursuant to §989.67 (a) and (b), it shall promptly file with the Secretary complete information with respect thereto and the basis therefor. The Secretary shall have the right to disapprove, within seven calendar days, the making of such an offer or sale or any term or conditions thereof.

(b) *Determination of price of reserve tonnage sold for free tonnage use.* Whenever, pursuant to §989.67(j), the Committee concludes, with respect to any varietal type of raisins, that a downward trend in the price received by producers for free tonnage, or in the prices received by handlers for free tonnage packed raisins, makes it impracticable to sell reserve tonnage at the average price received by producers for free tonnage plus pooling costs, the Committee, subject to the requirements of §99.67(j), may sell reserve tonnage raisins at the currently prevailing field price for free tonnage raisins of the

same varietal type, unless such price is deemed to be unrepresentative of the current f.o.b. price of free tonnage packed raisins. In such an event, or if there is no current field price, the Committee shall make any offer of reserve tonnage at approximately the computed field price obtained by deducting from the current f.o.b. price for free tonnage packed raisins of the varietal type to be offered, the approximate recent packing and handling margin between such packed price and the field price for free tonnage raisins. This paragraph (b) shall not be in effect from July 30, 1984, through July 31, 1986.

(c) *Terms of reserve tonnage offers.* Whenever the Committee offers reserve tonnage raisins to handlers for use in free tonnage outlets, the Committee shall, among other terms and conditions of the offer, specify (1) the period in which each handler shall be given the opportunity to purchase his share of the offer, and (2) the period in which each eligible handler shall be given an opportunity to purchase his respective share of any reoffer. In the event reserve pool raisins are transferred by the Committee, the purchasing handler shall promptly empty the raisins from the containers used in the transfer so that the Committee may return the containers and pallets used in the transfer to the handler from whom the raisins were transferred within 10 business days from the date of transfer. Any handler who refuses to permit the containers in which reserve pool raisins are stored to leave his premises, shall, at his expense, place such raisins in containers supplied by the Committee.

REPORTS AND RECORDS

§ 989.173 Reports.

(a) *Inventory reports.* Each handler shall submit to the Committee as of the close of business on July 31 of each crop year, and not later than the following August 6, an inventory report which shall show, with respect to each varietal type of raisins held by him:

(1) The quantity of free tonnage raisins, segregated as to locations where

they are stored and whether they are natural condition or packed;

(2) The quantity of reserve tonnage raisins for the account of the Committee; and

(3) The quantity of off-grade raisins segregated as to those for reconditioning and those for disposition as such. Upon request by the Committee, each handler shall file at other times, and as of other dates, any of the said information which may reasonably be necessary for the determination or revision of marketing policy and which the Committee shall specify in its request.

(b) *Reports of raisins received or acquired*—(1) *General.* (i) Except as otherwise provided in paragraph (i) of this section, each handler shall submit to the Committee (on forms furnished by it) for each week (Sunday through Saturday or such other 7-day period for which the handler has submitted a proposal to and received approval from the Committee) and not later than the following Wednesday, the reports specified in paragraphs (b)(2), (3), (4), and (5) of this section.

(ii) For each report required to be submitted pursuant to this paragraph, the required information shall be shown separately for each varietal type. With each report, other than that specified in paragraph (b)(4) of this section, the handler shall submit a copy of the door receipt, weight certificate or such other document approved by the Committee that accurately reflects the weight of each lot tendered, for each lot of raisins received or acquired by him during the reporting period and for each lot of raisins stored on memorandum or warehouse receipt which was returned to the tenderer during such period, which shall show the information to be contained on such receipts or weight certificates as specified in § 989.158(a)(3). At the time he submits the reports specified in paragraphs (b) (2) and (3) of this section to the Committee, each handler shall submit a copy of each such report to the Inspection Service.

(2) *Acquisition of standard raisins.* Each handler shall report:
