

§201.76

9 CFR Ch. II (1-1-01 Edition)

(4) Adjustable damping devices are incorporated in balance indicators and in dial scales to absorb the effects of load impact and assist in bringing the indicator to rest. The weigher should be familiar with the location and adjustment of these damping devices and should keep them adjusted so that the pointer will oscillate freely through at least one complete cycle of movement before coming to rest at its original position.

(5) Friction at weighbeam bearings may reduce the sensitivity of the scale, cause sluggish weighbeam action and affect weighing accuracy. A weigher should inspect the weighbeam assembly daily to make certain that there is clearance between the weighbeam and the pivot bearings.

(6) Interferences or binding of the scale platform, stock rack, gates or other "live" parts of the scale are common causes of weighing inaccuracy. A weigher should satisfy himself, at the beginning of each weighing period, that all such "live" parts have sufficient clearance to prevent interferences.

(g) *General precautions.* (1) The poises of weighbeam scales are carefully adjusted and sealed to a definite weight at the factory and any change in that weight seriously affects weighing accuracy. A weigher, therefore, should be certain that poise parts do not become broken, loose or lost and that no material is added to a poise. Balancing or weighing shall not be performed while a scale ticket is in the slot of a weighbeam poise.

(2) Stops are provided on scale weighbeams to prevent movement of poises back of the zero graduation when balancing or weighing. When the stops become worn or broken and allow a poise to be set behind the zero position, this condition should be reported and corrected without delay.

(3) Foreign objects or loose material in the form of nuts, bolts, washers or other material on any part of the weighbeam assembly, including the counter-balance hanger or counter-balance weights, are potential sources of weighing error. Loose balancing material must be enclosed in the shot cup of the counter-balance hanger, and counter-balance weights must not be of

the slotted type which can readily be removed.

(4) Whenever for any reason a weigher has reason to believe that a scale is not functioning properly or not yielding correct weight values, he shall discontinue weighing, report the facts to the parties responsible for scale maintenance, and request inspection, test, or repair of the scale.

(5) When a scale has been adjusted, modified, or repaired in any manner which may affect the accuracy of weighing or weight recording, the weigher shall not use the scale until it has been tested and inspected and found to be accurate.

(6) Count-off men, gate men, or others assigned to open or close scale gates or to drive livestock on or off the scale, shall perform those functions as directed by the weigher's signals or spoken instructions. They shall prevent persons or animals off the scale from being in contact with any part of the scale platform, stock rack, or gates while the scale is being balanced or used for weighing. They shall not open gates or remove livestock from the scale until directed by the weigher.

(Approved by the Office of Management and Budget under control number 0590-0001)

(7 U.S.C. 222 and 228 and 15 U.S.C. 46)

[39 FR 40277, Nov. 15, 1974, as amended at 49 FR 39516, Oct. 9, 1984; 61 FR 36282, July 10, 1996]

§201.76 **Reweighing.**

Stockyard owners, market agencies, dealers, packers and live poultry dealers shall reweigh livestock, livestock carcasses or live poultry on request of any authorized representative of the Secretary.

[54 FR 16356, Apr. 24, 1989]

§201.81 **Suspended registrants.**

No stockyard owner, packer, market agency, or dealer shall employ any person who has been suspended as a registrant to perform activities in connection with livestock transactions subject to the jurisdiction of the Secretary under the Act during the period of such suspension: *Provided*, That the provisions of this section shall not be construed to prohibit the employment of any person who has been suspended as

a registrant until such time as the person demonstrates solvency or obtains the bond required under the Act and regulations. No such person shall be employed, however, until after the expiration of any specified period of suspension contained in the order of suspension.

(7 U.S.C. 222 and 228 and 15 U.S.C. 46)
[49 FR 37374, Sept. 24, 1984]

§ 201.82 Care and promptness in weighing and handling livestock and live poultry.

(a) Each stockyard owner, market agency, dealer, packer and live poultry dealer shall exercise reasonable care and promptness with respect to loading, transporting, holding, yarding, feeding, watering, weighing or otherwise handling livestock or live poultry to prevent waste of feed, shrinkage, injury, death or other avoidable loss.

(b) Whenever live poultry is obtained under a poultry growing arrangement, the poultry shall be transported promptly after loading and the gross weight for grower payment purposes shall be determined immediately upon arrival at the processing plant, holding yard, or other scale normally used for such purpose.

[54 FR 16356, Apr. 24, 1989; 54 FR 18713, May 2, 1989]

INSPECTION OF BRANDS

§ 201.86 Brand inspection: Application for authorization, registration and filing of schedules, reciprocal arrangements, and maintenance of identity of consignments.

(a) *Application for authorization.* Any department or agency or duly-organized livestock association of any State in which branding or marking of livestock as a means of establishing ownership prevails by custom or statute, which desires to obtain an authorization to charge and collect a fee for the inspection of brands, marks, and other identifying characteristics of livestock, as provided in section 317 of the Act, shall file with the Administrator an application in writing for such authorization. In case two or more applications for authorization to collect a fee for the inspection of brands, marks, and other identifying

characteristics of livestock are received from the same State, a hearing will be held to determine which applicant is best qualified.

(b) *Registration and filing of schedules.* Upon the issuance of an authorization to an agency or an association, said agency or association shall register as a market agency in accordance with the provisions of §201.10, except that no bond need be filed or maintained, and shall file a schedule of its rates and charges for performing the service in the manner and form prescribed by §201.17.

(c) *Reciprocal arrangements.* Any authorized agency or association may make arrangements with an association or associations in the same or in another State, where branding or marking livestock prevails by custom or statute, to perform inspection service at stockyards on such terms and conditions as may be approved by the Administrator: *Provided*, That such arrangements will tend to further the purpose of the Act and will not result in duplication of charges or services.

(d) *Maintenance of identity of consignments.* All persons having custody at the stockyard of livestock subject to inspection shall preserve the identity of the consignment until inspection has been completed by the authorized inspection agency. Agencies authorized to conduct such inspection shall perform the work as soon after receipt of the livestock as practicable and as rapidly as is reasonably possible in order to prevent delay in marketing, shrinkage in weight, or other avoidable losses.

(Approved by the Office of Management and Budget under control number 0590-0001)

(7 U.S.C. 203, 204, 207, 217a, 222 and 228)

GENERAL

§ 201.94 Information as to business; furnishing of by packers, live poultry dealers, stockyard owners, market agencies, and dealers.

Each packer, live poultry dealer, stockyard owner, market agency, and dealer, upon proper request, shall give to the Secretary or his duly authorized representatives in writing or otherwise, and under oath or affirmation if
