

§ 117.686

33 CFR Ch. I (7-1-01 Edition)

§ 117.686 Yazoo River.

(a) The draws of the Canadian National/Illinois Central railroad bridge, mile 16.7 at Redwood, and the Satartia highway (S433) bridge, mile 53.3 at Satartia, shall open on signal if at least two hours notice is given. When a vessel has given notice and fails to arrive within the two hour period specified, the drawtender shall remain on duty for two additional hours and open the draw if the requesting vessel appears. After this time, an additional two hour notice is required.

(b) The draws of the bridges upstream from the Satartia highway (S433) bridge shall open on signal if at least four hours notice is given. When a vessel has given notice and fails to arrive within the four hour period specified, the drawtender shall remain on duty for two additional hours and open the draw if the requesting vessel appears. After this time, an additional four hour notice is required.

[CGD 82-025, 49 FR 17452, Apr. 24, 1984. Redesignated at CGD8-92-03, 57 FR 27696, June 22, 1992, as amended by USCG-2000-7223, 65 FR 40056, June 29, 2000]

MISSOURI

§ 117.687 Missouri River.

(a) The draws of the bridges across the Missouri River from the mouth to St. Joseph, shall open on signal; except that, from December 16 through the last day of February, the draws shall open on signal if at least 24 hours notice is given.

(b) The lift span of the A-S-B highway and railway bridge, Mile 365.6, between Kansas City, Kansas, and Kansas City, Missouri, is operated from a remote location. Radiotelephone contact may be established with the remotely located bridge/train controller to request bridge openings. The bridge is also equipped with a directional microphone and horn to receive and deliver signals to vessels not equipped with a radiotelephone. Closed circuit TV cameras located at the bridge enable the remotely located bridge/train controller to view both river traffic and the bridge itself.

(1) When an approaching vessel requires a bridge opening, contact shall be established with the bridge/train

controller by radiotelephone or appropriate signals prescribed in §117.15.

(2) The bridge/train controller will confirm by radiotelephone or sound signal that the bridge will open promptly.

(3) When rail traffic is on bridge, the bridge/train controller will inform the vessel that bridge cannot be opened and will also give an approximate time of bridge opening via radiotelephone. The bridge/train controller will indicate via sound signals that lift span cannot be opened if the vessel doesn't have a radiotelephone, or if radiotelephone is not used.

(4) When the bridge is clear of rail traffic, the bridge/train controller will advise the waiting vessel by radiotelephone or sound signal of the intended opening. The lift span will be raised to its full height, and the midchannel bridge lights will change from red to green.

(5) The bridge/train controller will monitor the vessel's passage via closed circuit TV and radiotelephone until it has cleared the bridge.

(6) When the vessel has cleared the draw, midchannel bridge navigation lights will change from green to red and the lift span will be lowered to the closed-to-navigation position.

[CGD 82-025, 49 FR 17452, Apr. 24, 1984, as amended by CGD2 84-03, 50 FR 47391, Nov. 18, 1985]

§ 117.689 Osage River.

The draw of the Missouri Pacific Railroad bridge, mile 5.6 at Osage City, need not be opened for the passage of vessels.

NEBRASKA

§ 117.691 Missouri River.

The draw of the Illinois Central Gulf railroad bridge, mile 618.3 at Omaha, shall open on signal; except that, from December 1 through the last day of February, the draw shall open on signal if at least 24 hours notice is given.

NEW HAMPSHIRE

§ 117.697 Hampton River.

The SR1A bridge, mile 0.0 at Hampton, operates as follows:
