

to undertake prescribed corrective actions ordered subsequent to permit denial or refuses to accept a conditioned permit, the district engineer may initiate legal action in accordance with § 326.5.

(f) *Combining steps.* The procedural steps in this section are in the normal sequence. However, these regulations do not prohibit the streamlining of the enforcement process through the combining of steps.

(g) *Coordination with EPA.* In all cases where the district engineer is aware that EPA is considering enforcement action, he should coordinate with EPA to attempt to avoid conflict or duplication. Such coordination applies to interim protective measures and after-the-fact permitting, as well as to appropriate legal enforcement actions.

51 FR 41246, Nov. 13, 1986, as amended at 64 FR 11714, Mar. 9, 1999; 65 FR 16493, Mar. 28, 2000]

#### § 326.4 Supervision of authorized activities.

(a) *Inspections.* District engineers will, at their discretion, take reasonable measures to inspect permitted activities, as required, to ensure that these activities comply with specified terms and conditions. To supplement inspections by their enforcement personnel, district engineers should encourage their other personnel; members of the public; and interested state, local, and other Federal agency representatives to report suspected violations of Corps permits. To facilitate inspections, district engineers will, in appropriate cases, require that copies of ENG Form 4336 be posted conspicuously at the sites of authorized activities and will make available to all interested persons information on the terms and conditions of issued permits. The U.S. Coast Guard will inspect permitted ocean dumping activities pursuant to section 107(c) of the Marine Protection, Research and Sanctuaries Act of 1972, as amended.

(b) *Inspection limitations.* Section 326.4 does not establish a non-discretionary duty to inspect permitted activities for safety, sound engineering practices, or interference with other permitted or unpermitted structures or uses in the area. Further, the regulations imple-

menting the Corps regulatory program do not establish a non-discretionary duty to inspect permitted activities for any other purpose.

(c) *Inspection expenses.* The expenses incurred in connection with the inspection of permitted activities will normally be paid by the Federal Government unless daily supervision or other unusual expenses are involved. In such unusual cases, the district engineer may condition permits to require permittees to pay inspection expenses pursuant to the authority contained in section 9701 of Pub L. 97-258 (33 U.S.C. 9701). The collection and disposition of inspection expense funds obtained from applicants will be administered in accordance with the relevant Corps regulations governing such funds.

(d) *Non-compliance.* If a district engineer determines that a permittee has violated the terms or conditions of the permit and that the violation is sufficiently serious to require an enforcement action, then he should, unless at his discretion he deems it inappropriate: (1) First contact the permittee;

(2) Request corrected plans reflecting actual work, if needed; and

(3) Attempt to resolve the violation. Resolution of the violation may take the form of the permitted project being voluntarily brought into compliance or of a permit modification (33 CFR 325.7(b)). If a mutually agreeable solution cannot be reached, a written order requiring compliance should normally be issued and delivered by personal service. Issuance of an order is not, however, a prerequisite to legal action. If an order is issued, it will specify a time period of not more than 30 days for bringing the permitted project into compliance, and a copy will be sent to the appropriate state official pursuant to section 404(s)(2) of the Clean Water Act. If the permittee fails to comply with the order within the specified period of time, the district engineer may consider using the suspension/revocation procedures in 33 CFR 325.7(c) and/or he may recommend legal action in accordance with § 326.5.

#### § 326.5 Legal action.

(a) *General.* For cases the district engineer determines to be appropriate, he
