

§ 71.11

22 CFR Ch. I (4-1-02 Edition)

(5) Request the prisoner to execute a promissory note, since funds expended by the Department to cover medical services normally are on a reimbursable basis; and

(6) Submit the above information, along with recommendations and evaluations, to the Department for approval and authorization.

(d) *Emergency expenditure authorization.* When a medical emergency prohibits the delay inherent in contacting the Department and receiving authority to expend funds, the consular officer can expend up to an amount to be established by the Department without prior Departmental approval if:

(1) Symptoms determine eligibility for emergency medical treatment; or

(2) An immediate medical examination is warranted in order to verify the alleged abuse of a U.S. national prisoner by arresting or confining authorities; or

(3) Immediate emergency medical treatment or surgery is necessary to prevent death or permanent disablement, and there is insufficient time to explore private funds or obtain Department approval; and

(4) A promissory note already has been executed by the prisoner, or if the circumstances warrant, by the consular officer without recourse.

§ 71.11 Short-term full diet program.

(a) *Eligibility criteria.* A prisoner is considered eligible for the short-term full diet program under the following general criteria:

(1) The prisoner is to be or has been held in excess of one day in a holding jail or other facility;

(2) Incarcerating officials do not provide the prisoner food, and food is not available from any other sources, including private funding from family or friends; and

(3) If the funds exceed an amount to be established by the Department, the prisoner signs a promissory note for funds expended, since the assistance is on a normally reimbursable basis.

(b) *Consular responsibility.* As soon as the consular officer is aware that a U.S. national is incarcerated in a facility wherein food is not routinely provided, the consular officer should:

(1) Contact the prisoner in accordance with existing procedures;

(2) Determine the normal cost of basic diet and best method of effecting payment;

(3) Attempt to secure funds from private sources such as family or friends;

(4) Because funds expended by the Department to cover the short-term full diet program normally are on a reimbursable basis, have the prisoner execute a promissory note; and

(5) Contact the Department, providing the above information, for approval and authorization.

(c) *Emergency expenditure authorization.* Since an immediate need for a short-term full diet program often prohibits the delay inherent in contacting the Department and receiving authority to expend funds, the consular officer can expend up to an amount to be established by the Department without prior Departmental approval if the prisoner's case meets the criteria established in paragraph (a) of this section. Expenditures above the predetermined limit must receive the prior approval of the Department.

§ 71.12 Dietary supplements.

(a) *Eligibility criteria.* A prisoner is considered eligible for the dietary supplement program under the following general criteria:

(1) An evaluation by a private physician, prison doctor, or other host country medical authority reveals that the prison diet does not meet the minimum requirements to sustain adequate health; or

(2) If the evaluation in paragraph (a)(1) of this section is not available, an evaluation by either a regional medical officer or Departmental medical officer reveals that the prison diet does not provide the minimum requirements to sustain adequate health.

(b) *Consular responsibility.* (1) When the consular officer is aware that the U.S. prisoner's diet does not provide the minimum requirements to sustain adequate health, the consular officer shall obtain the necessary dietary supplements and distribute them to the prisoner on a regular basis.

(2) As soon as the consular officer believes that dietary supplements are being misused, the consular officer
