a person, not an officer or director of a corporate proprietor, owning or having the right of control of not more than 10 percent of any class of stock of that proprietor, is not liable by reason of the stock ownership or control. Persons transferring spirits in bond so liable for the tax are relieved of liability if

(1) The proprietors of transferring and receiving premises are independent of each other and neither has a proprietary interest, directly or indirectly, in the business of the other, and

(2) No person so liable for the tax on the spirits transferred retains any interest in the spirits.

(b) *Storage on bonded premises.* 26 U.S.C. 5005(c) provides that each person operating bonded premises shall be liable for the tax on all spirits while the spirits are stored on the premises, and on all spirits which are in transit to the premises from the time of removal from the transferor's bonded premises, pursuant to an approved application. Liability for the tax continues until the spirits are transferred or withdrawn from bonded premises as authorized by law, or until the liability for tax is relieved under the provisions of 26 U.S.C. 5008(a). Claims for relief from liability for spirits lost are provided for in §19.41. Voluntary destruction of spirits in bond is provided for in subpart U of this part.

(c) *Withdrawals without payment of tax.* Under 26 U.S.C. 5005(e), any person who withdraws spirits from the bonded premises of a plant without payment of tax, as provided in 26 U.S.C. 5214, shall be liable for the tax on the spirits from the time of withdrawal. The person shall be relieved of any liability at the time the spirits are exported, deposited in a foreign-trade zone, used in production of wine, deposited in a customs bonded warehouse, laden as supplies upon or used in the maintenance or repair of certain vessels or aircraft, or used for certain research, development or testing, as provided by law.

(d) *Withdrawals free of tax.* Persons liable for tax under paragraph (a) of this section, are relieved of the liability on spirits withdrawn from bonded premises free of tax under this part, at the time the spirits are withdrawn.

EFFECTIVE TAX RATES

SOURCE: Sections 19.34 through 19.38 added by T.D. ATF-297, 55 FR 18062, Apr. 30, 1990, unless otherwise noted.

§ 19.34 Computation of effective tax rate.

(a) The proprietor shall compute the effective tax rate for distilled spirits containing eligible wine or eligible flavors as the ratio of the numerator and denominator as follows:

(1) The numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multiplied by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b)(1), (2), or (3), which would be imposed on the wine but for its removal to bonded premises; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2½% of the denominator prescribed in paragraph (a)(2) of this section.

(2) The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) In determining the effective tax rate, quantities of distilled spirits, eligible wine, and eligible flavors will be expressed to the nearest tenth of a proof gallon. The effective tax rate may be rounded to as many decimal places as the proprietor deems appropriate, provided that, such rate is expressed no less exactly than the rate rounded to the nearest whole cent, and the effective tax rates for all products will be consistently expressed to the same number of decimal places. In such case, if the number is less than five it will be dropped; if it is five or over, a unit will be added.

(c) The following is an example of the use of the formula.
