

chapter for similar products made in the United States.

(1) Products may be made with completely denatured alcohol for sale under brand names under part 20 of this chapter without obtaining an approved formula. If ingredients are added in sufficient quantities to materially change the composition and character of the completely denatured alcohol, the product is not classified as completely denatured alcohol and may not be marked, branded, or sold as completely denatured alcohol.

(2) Products made with specially denatured spirits shall be made in accordance with (i) a general-use formula approved as provided in part 20 of this chapter, or (ii) an approved formula on Form 5150.19, or previously approved on ATF Form 1479-A or 27-B Supplemental.

(c) *Formulas required.* Formulas required by this section shall be submitted on Form 5150.19, except that formulas for eligible articles shall be submitted on Form 5154.1 (formerly 1678). Formulas shall be submitted in accordance with § 26.54. Any formula for an eligible article approved on Form 5150.19 prior to October 23, 1986 shall continue to be valid until revoked or voluntarily surrendered. Any person holding such a formula is not required to submit a new formula.

§ 26.52 Still wines containing carbon dioxide.

(a) *General.* Still wines may contain not more than 0.392 gram of carbon dioxide per 100 milliliters of wine; except that a tolerance to this maximum limitation, not to exceed 0.009 gram of carbon dioxide per 100 milliliters of wine, will be allowed where the amount of carbon dioxide in excess of 0.392 gram per 100 milliliters of wine was due to mechanical variations which could not be completely controlled under good commercial practices. Such tolerance will not be allowed where it is found

that the limitation of 0.392 gram of carbon dioxide per 100 milliliters of wine is continuously or intentionally exceeded, or where the variation results from the use of methods or equipment not in accord with good commercial practices.

(b) *Notice required.* Proprietors intending to add carbon dioxide to, or retain carbon dioxide in, still wines to be shipped to the United States shall submit a notice to the appropriate ATF officer. The notice shall show the name and address of the proprietor and shall identify the method or process, the kinds (class and type) of wine, and the type of equipment to be used. A corrected notice shall be filed if there is any change (except for minor changes) in the information contained in the notice.

(c) *Filing and disposition of notice.* The notice required by paragraph (b) of this section shall be submitted in quadruplicate to the appropriate ATF officer, who shall retain one copy, forward one copy to the Secretary, and one copy to the revenue agent at the proprietor's premises, and return one copy to the proprietor. The proprietor shall keep the notice available for examination by revenue agents.

§ 26.53 Changes of formulas.

Any change in the ingredients composing a product covered by an approved formula will necessitate the submission of a new formula.

§ 26.54 Filing and disposition of formulas.

Formulas required by this subpart must be submitted, and disposed of, in accordance with the instructions on the prescribed ATF form. The applicant shall maintain copies of approved
