§ 246.5 Selection of local agencies.

(a) *General.* This section sets forth the procedures the State agency shall perform in the selection of local agencies and the expansion, reduction, and disqualification of local agencies already in operation. In making decisions to initiate, continue, and discontinue the participation of local agencies, the State agency shall give consideration to the need for Program benefits as delineated in the Affirmative Action Plan.

(b) *Application of local agencies.* The State agency shall require each agency, including subdivisions of the State agency, which desires approval as a local agency, to submit a written local agency application. After the receipt of an incomplete application, the State agency shall provide written notification to the applicant agency of the additional information needed. After the receipt of a complete application, the State agency shall notify the applicant agency in writing of the approval or disapproval of its application. When an

application is disapproved, the State agency shall advise the applicant agency of the reasons for disapproval and of the right to appeal as set forth in § 246.18. When an agency submits an application and there are no funds to serve the area, the applicant agency shall be notified that there are currently no funds available for Program initiation or expansion. The applicant agency shall be notified by the State agency when funds become available.

(c) *Program initiation and expansion.* The State agency shall meet the following requirements concerning Program initiation and expansion:

(1) The State agency shall fund local agencies serving those areas or special populations most in need first, in accordance with their order of priority as listed in the Affirmative Action Plan described in § 246.4(a)(5). The selection criteria cited in paragraph (d)(1) of this section shall be applied to each area or special population before eliminating that area from consideration and serving the next area of special population. The State agency shall consider the number of participants in each priority level being served by existing local agencies in determining when it is appropriate to move into additional areas in the Affirmative Action Plan or to expand existing operations in an area. Additionally, the State agency shall consider the total number of people potentially eligible in each area compared to the number being served. Expansion of existing operations shall be in accordance with the Affirmative Action Plan and may be based on the percentage of need being met in each participant priority level.

(2) The State agency shall provide a written justification to FNS for not funding an agency to serve the highest priority area or special population. Such justification may include its inability to administer the Program, lack of interest expressed for operating the Program, or for those areas or special populations which are under consideration for expansion of an existing operation, a determination by the State agency that there is a greater need for funding an agency serving an area or special population not operating the Program. The State agency
