

§ 700.6

(5) Approve applicants' water quality plans and revisions.

[45 FR 14009, Mar. 4, 1980, as amended at 46 FR 29454, June 2, 1981; 59 FR 60299, Nov. 23, 1994]

§ 700.6 Officials not precluded from exercising authority.

Nothing in these regulations shall preclude the Secretary; Administrator, FSA; NCC; or Deputy Administrator, State and County Operations, FSA; from administering any or all phases of the RCWP programs delegated to the LCC, County ASC Committee, SCC, State ASC Committee or any employee(s) where the committee or employee fails to perform a function required in these regulations. In exercising this authority either the Secretary, Administrator, FSA, or Deputy Administrator, FSA, may delegate a person or persons to be in charge with full authority to carry out the program or other function(s) without regard to the LCC, ASC committee(s), or employee(s) for such period of time as is deemed necessary.

[59 FR 60299, Nov. 23, 1994]

Subpart B—Project Authorization and Funding

§ 700.10 Applicability.

The RCWP is applicable in project areas that meet the criteria for eligibility contained in § 700.12 and are authorized for funding by the Secretary.

§ 700.11 Availability of funds.

(a) The allocation of funds to the County ASC Committee(s) in a project area is to be made on the basis of the total funds needed to carry out the approved project.

(b) The obligation of Federal funds for RCWP contracts with participants is to be made on the basis of the total contract costs.

§ 700.12 Eligible project areas.

(a) Only those project areas which reflect the water quality priority concerns developed through the established water quality management program planning process and have identified agricultural nonpoint source water quality problems are eligible for au-

7 CFR Ch. VII (1–1–02 Edition)

thorization under RCWP. Only those critical areas or sources of pollutants significantly contributing to the water quality problems are eligible for financial and technical assistance.

(b) An RCWP project area is a hydrologically related land area. Exceptions may be made for ease of administration, or to focus on concentrated critical areas. To be designated as an RCWP project area eligible for authorization, the area's water quality problems must be related to agricultural nonpoint source pollutants, including but not limited to, sediment, animal waste, irrigation return flows, runoff, or leachate that contain high concentrations of nitrogen, phosphorus, dissolved solids, toxics (pesticides and heavy metals), or high pathogen levels.

§ 700.13 Project applications.

Existing and subsequent project applications submitted for consideration must contain adequate information on each item specified in § 700.14. Instructions on such information requirements will be issued by the Administrator, FSA. Opportunity will be provided prior to final approval of a project for the LCC and the SCC, in consultation with the Governor, through the applicable County and State ASC Committees, for modification necessary to bring them into conformance with the provisions of these regulations.

§ 700.14 Review and approval of project applications.

(a) In reviewing applications and recommending priorities, the NCC will consider the following:

(1) Severity of the water quality problem caused by agricultural and silvicultural related pollutants, including:

(i) State designated uses of the water affected.

(ii) Kinds, sources, and effects of pollutants.

(iii) Miles of stream or acres of water bodies affected, extent of groundwater contamination.

(2) Demonstration of public benefits from the project, including:

(i) Effects on human health.
