

## Farm Service Agency, USDA

## § 752.6

Farm Service Agency (FSA), U.S. Department of Agriculture.

(c) *Agreement* means a water bank agreement.

(d) *Conservation plan* means a written record of the land user's decisions on the use and management of the wetland and adjacent areas covered by the agreement. The conservation plan is the basis for the agreement. It includes a schedule of conservation treatment and management required to improve, protect, or restore the wetland and to maintain the wetland and adjacent land as a functional wetland unit for the life of the agreement. Conservation treatment and management of the vegetation for wetland protection, wildlife habitat, or other authorized objectives are consistent with the program objectives and priorities.

(e) *Wetlands* means the inland fresh areas described as types 1 through 7 in Circular 39, Wetlands of the United States, as published by the United States Department of the Interior.

(f) In the regulations in this part and in all instructions, forms, and documents in connection therewith, all other words and phrases specifically relating to FSA operation shall, unless the context of subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms, allotments and bases, part 719 of this chapter, as amended.

[48 FR 45528, Oct. 6, 1983, as amended at 50 FR 7744, Feb. 26, 1985]

### § 752.3 Administration.

(a) The program will be administered under the general supervision of the Administrator, in consultation with the Secretary of the Interior or his designee, and shall be carried out in the field by FSA State and county committees.

(b) Members of county committees are authorized to approve water bank agreements on behalf of the Secretary of Agriculture.

(c) State and county committees do not have authority to modify or waive any of the provisions of these regulations, or any amendment, supplement, or revision thereto. They do not have authority to modify or waive any of the provisions of any agreement en-

tered into hereunder except to the extent specifically authorized in this part.

[48 FR 45528, Oct. 6, 1983, as amended at 50 FR 7744, Feb. 26, 1985]

### § 752.4 Geographical applicability.

The program will be applicable in States and counties designated by the Deputy Administrator, State and County Operations, FSA (hereinafter referred to as the "Deputy Administrator") after consultation with the United States Fish and Wildlife Service, United States Department of the Interior.

### § 752.5 Eligible farm.

A farm is eligible for participation in the program if: (a) At the time the request for an agreement is filed, land on the farm is not covered by a Water Bank Program agreement; (b) the farm contains at least one of the types 3 through 7 wetlands which are identified in a conservation plan developed in cooperation with the Soil and Water Conservation District in which the farm is located; and (c) the farm meets the other requirements specified in this part.

### § 752.6 Land eligible for designation.

(a) Land placed under an agreement shall be specifically identified and designated for the period of the agreement.

(b) Land eligible for designation must be: (1) Privately owned inland fresh wetland areas of types 1 through 7 of which at least 2 acres must be types 3 through 7 wetlands with respect to which, in the absence of inclusion in the program, destruction of the wetland character could reasonably be expected; (2) privately owned inland fresh wetland areas of types 1 through 7, which are under a drainage easement with the U.S. Department of the Interior or with a State government which permits agricultural use; or (3) other privately owned land which is adjacent to or within one quarter mile of designated types 1 through 7 wetlands and which is determined by the county committee to be essential for the nesting, breeding, or feeding of migratory waterfowl, or for the protection of wetland.

**§ 752.7**

**7 CFR Ch. VII (1-1-02 Edition)**

(c) The following land is not eligible for designation: (1) Land on which the ownership has changed during the 2-year period preceding the first year of the agreement period unless: (i) The new ownership was acquired by will or succession as a result of the death of the previous owner, or (ii) the land was acquired by the owner or operator to replace eligible land from which he was displaced because of its acquisition by any Federal, State, or other agency having the right of eminent domain. However a new owner shall not be prohibited from entering into an agreement if the person has operated the land to be designated for as long as 2 years preceding the first year of the agreement and has control of such land for the agreement period. The provisions of this subparagraph shall not prohibit the continuation of an agreement by a new owner after an agreement has once been entered into under this part.

(2) Land which is set aside or diverted under any other program administered by the Department of Agriculture.

(3) Land which is owned by the United States or a State or local government or political subdivision thereof.

(4) Land which is harvested in the first year of the agreement period prior to being designated, except for land on which timber is harvested in accordance with § 752.7(g).

(5) Types 1 through 7 wetlands which are common to more than one farm unless the portion of a wetland area located on the farm which controls the potential outlet for drainage is placed under agreement. After an agreement has been approved for the farm controlling the outlet for drainage, an agreement may be entered into with any or all other farms for other portions of the common wetland area if all agreements have the same beginning date as the farm controlling the outlet for drainage.

[48 FR 45528, Oct. 6, 1983, as amended at 50 FR 7744, Feb. 26, 1985]

**§ 752.7 Use of designated acreage.**

(a) The acreage designated under an agreement shall be maintained for the agreement period in a manner which

will preserve, restore or improve the wetland character of the land. Persons entering into an agreement shall devote the adjacent land to conservation uses as specified in the agreement.

(b) The designated acreage shall not be drained, burned, filled, or otherwise used in a manner which would destroy the wetland character of the acreage, except that the provisions of this paragraph shall not prohibit the carrying out of management practices which are specified in a conservation plan for the farm which is developed in cooperation with the Soil and Water Conservation District in which the farm is located.

(c) The designated acreage shall not be used as a dumping area for draining other wetlands. However, the county committee may authorize the use of the designated area to receive limited drainage waters upon a determination that such use is consistent with the sound management of wetlands and is specified in the conservation plan for the farm.

(d) The designated acreage shall not be used: (1) As a source of irrigation water or as acreage for a set-aside, land diversion, acreage reduction or other program, or (2) to meet the conserving base acreage requirement for any other program.

(e) No crop shall be harvested from the designated acreage and such acreage shall not be grazed, except as may be specified in the conservation plan for the farm except that the designated acreage may be grazed in the first year of the agreement period prior to the date the agreement is approved.

(f) During periods of severe drought, haying of the designated acreage may be approved under specified conditions which are prescribed by the Deputy Administrator in consultation with the Secretary of Interior or his designee.

(g) The harvesting of timber products may be permitted but only in accordance with a Forest Management Plan which is included in the conservation plan and which is approved by the State forester or equivalent State official.

[48 FR 45528, Oct. 6, 1983, as amended at 50 FR 7744, Feb. 26, 1985]
