

(2) Examining, grading, or testing the sample(s);

(3) Examining relevant records for the lot; and

(4) Certifying the results.

(c) *Submitted sample inspection service.* This service consists of official personnel grading or testing a sample submitted by the applicant and certifying the results.

(d) *Examination service.* This service consists of official personnel examining supplies without the use of special laboratory equipment or procedures to determine conformance to requirements requested by the applicant and certifying the results.

(e) *Checkweighing service (container).* This service consists of official personnel—

(1) Weighing a selected number of containers from a commodity lot;

(2) Determining the estimated total gross, tare, and net weights or the estimated average gross or net weight per filled container; and

(3) Certifying the results.

(f) *Bulk weighing service.* This service consists of official personnel—

(1) Completely supervising the loading or the unloading of an identified lot of bulk or containerized commodity;

(2) Physically weighing or completely supervising the weighing of the commodity; and

(3) Certifying the results.

(g) *Checkloading service.* This service consists of official personnel—

(1) Performing a stowage examination;

(2) Computing the number of filled commodity containers loaded aboard the carrier;

(3) Observing the condition of commodity containers loaded aboard the carrier;

(4) If practicable, sealing the carrier; and

(5) Certifying the results.

(h) *Checkcounting service.* This service consists of official personnel determining the total number of filled outer containers in a lot to determine that the number of containers shown by the applicant is correct and certifying the results.

(i) *Condition inspection service.* This service consists of official personnel determining the physical condition of

the commodity by determining whether an identifiable commodity lot is water damaged, fire damaged, or has rodent or bird contamination, insect infestation, or any other deteriorating condition and certifying the results.

(j) *Condition of food containers service.* This service consists of official personnel determining the degree of acceptability of the containers with respect to absence of defects which affect the serviceability, including appearance as well as usability, of the container for its intended purpose and certifying the results.

(k) *Observation of loading service.* This service consists of official personnel determining that an identified lot has been moved from a warehouse or carrier and loaded into another warehouse or carrier and certifying the results.

(l) *Plant approval service.*¹ This service consists of official personnel performing a plant survey to determine if the plant premises, facilities, sanitary conditions, and operating methods are suitable to begin or continue inspection service.

(m) *Stowage examination service.* This service consists of official personnel visually determining if an identified carrier or container is clean; dry; free of infestation, rodents, toxic substances and foreign odor; and suitable to store or carry commodities and certifying the results.

§ 868.32 Who shall inspect commodities.

Official commodity inspections shall be performed only by official personnel.

§ 868.33 Sample requirements; general.

(a) *Samples for lot inspection service.* (1) *Original lot inspection service.* The sample(s) on which the original inspection is determined shall be—

(i) Obtained by official personnel;

(ii) Representative of the commodity in the lot;

¹ Compliance with the requirements in this paragraph does not excuse failure to comply with all applicable sanitation rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such plants and operations.

(iii) Protected by official personnel from manipulation, substitution, and improper or careless handling; and

(iv) Obtained within the prescribed area of responsibility of the cooperator or field office performing the inspection service.

(2) *Retest lot inspection service.* The sample(s) on which the retest is determined shall meet the requirements of paragraph (a)(1) of this section. The retest inspection shall be performed on the basis of a file sample(s), and the samples shall meet the requirements prescribed in § 868.35(e).

(3) *Appeal lot inspection service.* For an appeal lot inspection service, the sample(s) on which the appeal is determined shall meet the requirements of paragraph (a)(1) of this section. If the appeal inspection is performed on the basis of a file sample(s), the samples shall meet the requirements prescribed in § 868.35(e). In accordance with § 868.61(b), an applicant may request that a new sample be obtained and examined as part of the appeal inspection service.

(4) *Board appeal lot inspection service.* A Board appeal lot inspection service shall be performed on the basis of file sample.

(b) *Sampler requirement.* An official sampler shall sample commodities and forward the samples to the appropriate cooperator or field office or other location as specified. A sampling report signed by the sampler shall accompany each sample. The report shall include the identity, quantity, and location of the commodity sampled; the name and mailing address of the applicant; and all other information regarding the lot as may be required.

(c) *Representative sample.* A sample shall not be considered representative of a commodity lot unless the sample—

(1) Has been obtained by official personnel;

(2) Is of the size prescribed in the instructions; and

(3) Has been obtained, handled, and submitted in accordance with the instructions.

(d) *Protecting samples.* Official personnel shall protect samples from manipulation, substitution, and improper and careless handling which would deprive the samples of their representa-

tiveness or which would change the physical and chemical properties of the commodity from the time of sampling until inspection services are completed and file samples have been discarded.
