

§71.1

9 CFR Ch. I (1-1-02 Edition)

- 71.3 Interstate movement of diseased animals and poultry generally prohibited.
- 71.4 Maintenance of certain facilities and premises in a sanitary condition required; cleaning and disinfection, when required; animals classed as "exposed."
- 71.5 Unsanitary railroad cars, trucks, boats, aircraft or other means of conveyance; interstate movement restricted.
- 71.6 Carrier responsible for cleaning and disinfecting of railroad cars, trucks, boats, aircraft or other means of conveyance.
- 71.7 Means of conveyance, facilities, premises, and cages and other equipment; methods of cleaning and disinfecting.
- 71.10 Permitted disinfectants.
- 71.11 Cresylic disinfectant as permitted disinfectant; specifications.
- 71.12 Sodium orthophenylphenate as permitted disinfectant for premises infected with tuberculosis.
- 71.13 Inspection of shipments in transit by APHIS representative.
- 71.14 Slaughter of poultry or other animals to prevent spread of disease; ascertainment of value and compensation.
- 71.15 Movement from quarantined to free area and shipment therefrom; conditions under which permitted.
- 71.16 Inspection and certification of poultry or other animals for interstate movement.
- 71.17 Interstate movement of dead poultry or other animals prohibited in same car with live poultry or other animals.
- 71.18 Individual identification of certain cattle 2 years of age or over for movement in interstate commerce.
- 71.19 Identification of swine in interstate commerce.
- 71.20 Approval of livestock facilities.

AUTHORITY: 21 U.S.C. 111-113, 114a, 114a-1, 115-117, 120-126, 134b, and 134f; 7 CFR 2.22, 2.80, and 371.4.

§71.1 Definitions.

As used in this part, the following terms shall have the meanings set forth in this section.

Accredited Veterinarian. A veterinarian who is approved by the Administrator, in accordance with part 161 of this chapter, to perform official animal health work of the Animal and Plant Health Inspection Service specified in subchapters A, B, C, and D of this chapter; and to perform work required by cooperative state-federal disease control and eradication programs.

Administrator. The Administrator, Animal and Plant Health Inspection

Service, or any person authorized to act for the Administrator.

Animal and Plant Health Inspection Service. The Animal and Plant Health Inspection Service of the United States Department of Agriculture (APHIS).

APHIS representative. An individual employed by APHIS who is authorized to perform the function involved.

Approved livestock facility. A stockyard, livestock market, buying station, concentration point, or any other premises under State or Federal veterinary supervision where livestock are assembled and that has been approved under §71.20.

Area Veterinarian in Charge. The veterinary official of APHIS, who is assigned by the Administrator to supervise and perform the official animal health work of the Animal and Plant Health Inspection Service in the state concerned.

Breeder swine. Sexually intact swine over 6 months of age.

Commingleing. The mixing or assembling of swine from one premises with swine from any other premises, including, but not limited to, loading swine from more than one premises on the same truck, trailer, vessel, or railroad car, unless swine from different premises are kept separate on the means of conveyance by dividers.

Department. The United States Department of Agriculture.

Feeder swine. Swine under 6 months of age that are not slaughter swine.

Free area. The States, Territories, or the District of Columbia or portions thereof not quarantined by the Secretary of Agriculture for the specific contagious, infectious, or communicable animal disease mentioned in each part.

Horses. Horses, asses, mules, ponies, and zebras.

Interstate. From one State into or through any other State.

Interstate commerce. Trade, traffic, transportation, or other commerce between a place in a state and any place outside of that state, or between points within a state but through any place outside of that state.

Livestock. Horses, cattle, bison, sheep, and swine.

Livestock market. A stockyard, buying station, concentration point, or any

other premises where livestock are assembled for sale or sale purposes.

Moved (movement) in interstate commerce. Moved from the point of origin of the interstate movement to the animals' final destination, such as a slaughtering establishment or a farm for breeding or raising, and including any temporary stops along the way, such as at a stockyard or dealer premises for feed, water, rest, or sale.

Official Brand Inspection Agency. The duly constituted body elected, appointed, or delegated or granted authority by a State or governmental subdivision thereof, to administer laws, regulations, ordinances or rules pertaining to the brand identification of livestock.

Official brand inspection certificate. A certificate issued by an official brand inspection agency in any State in which such certificates are required for movement of livestock.

Official eartag. An identification eartag approved by APHIS as being tamper-resistant and providing unique identification for each animal. An official eartag may conform to the alpha-numeric National Uniform Eartagging System, or it may bear a valid premises identification number that is used in conjunction with the producer's livestock production numbering system to provide a unique identification number.

Official swine tattoo. A tattoo, conforming to the six-character alpha-numeric National Tattoo System, that provides a unique identification for each herd or lot of swine.

Person. Any individual, corporation, company, association, firm, partnership, society, or joint stock company, or other legal entity.

Premises identification number. A unique number assigned by the State animal health official to a livestock production unit that is, in the judgment of the State animal health official or area veterinarian in charge, epidemiologically distinct from other livestock production units. A premises identification number shall consist of the State's two-letter postal abbreviation followed by the premises' assigned number. A premises identification number may be used in conjunction with a producer's own livestock pro-

duction numbering system to provide a unique identification number for an animal.

Purebred registry association. A swine breed association formed and perpetuated for the maintenance of records of purebreeding of swine species for a specific breed whose characteristics are set forth in constitutions, by-laws, and other rules of the association.

Quarantined area. The States, Territories, or the District of Columbia or portions thereof quarantined by the Secretary of Agriculture for the specific contagious, infectious, or communicable animal disease mentioned in each part.

Slaughter swine. Swine being sold or moved for slaughter purposes only.

State. Any of the 50 states, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the District of Columbia, and any territories and possessions of the United States.

State animal health official. The state official responsible for livestock and poultry disease control and eradication programs.

State representative. An individual employed in animal health work by a state or a political subdivision thereof and authorized by such state or political subdivision to perform the function involved.

Tick infested. Infested with the ticks *Boophilus annulatus* (Margaropus annulatus), *Boophilus microplus*, or *Rhipicephalus evertsi evertsi*.

United States Department of Agriculture backtag. A backtag issued by APHIS that conforms to the eight-character alpha-numeric National Backtagging System, and that provides unique identification for each animal.

[28 FR 5937, June 13, 1963, as amended at 29 FR 14489, Oct. 22, 1964; 35 FR 14197, Sept. 9, 1970; 38 FR 18011, July 6, 1973; 50 FR 45987, Nov. 6, 1985; 51 FR 32599, Sept. 12, 1986, 53 FR 40385, Oct. 14, 1988; 55 FR 11155, 11156, Mar. 27, 1990; 55 FR 15320, Apr. 23, 1990; 62 FR 27933, May 22, 1997; 62 FR 54758, Oct. 22, 1997]

EFFECTIVE DATE NOTE: At 66 FR 65602, Dec. 20, 2001, § 71.1 was amended by adding definitions of *interstate swine movement report*, *swine production health plan*, *swine production system*, and *swine production system accredited veterinarian*, effective Jan. 22, 2002. For the convenience of the user, the added text is set forth as follows:

§ 71.2

§ 71.1 Definitions.

* * * * *

Interstate swine movement report. A paper or electronic document signed by a producer moving swine giving notice that a group of animals is being moved across State lines in a swine production system. This document must contain the name of the swine production system; the name, location, and premises identification number of the premises from which the swine are to be moved; the name, location, and premises identification number of the premises to which the swine are to be moved; the date of movement; and the number, age, and type of swine to be moved. This document must also contain a description of any individual or group identification associated with the swine, the name of the swine production system accredited veterinarian(s), the health status of the herd from which the swine are to be moved, including any disease of regulatory concern to APHIS or to the States involved, and an accurate statement that swine on the premises from which the swine are to be moved have been inspected by the swine production system accredited veterinarian(s) within 30 days prior to the interstate movement and consistent with the dates specified by the premises' swine production health plan and found free from signs of communicable disease.

* * * * *

Swine production health plan. A written agreement developed for a swine production system designed to maintain the health of the swine and detect signs of communicable disease. The plan must identify all premises that are part of the swine production system and that receive or send swine in interstate commerce and must provide for regular inspections of all identified premises and swine on the premises, at intervals no greater than 30 days, by the swine production system accredited veterinarian(s). The plan must also describe the recordkeeping system of the swine production system. The plan will not be valid unless it is signed by an official of each swine production system identified in the plan, the swine production system accredited veterinarian(s), an APHIS representative, and the State animal health official from each State in which the swine production system has premises. In the plan, the swine production system must acknowledge that it has been informed of and has notified the managers of all its premises listed in the plan that any failure of the participants in the swine production system to abide by the provisions of the plan and the applicable provisions of this part and part 85 of this chapter constitutes a basis for the cancellation of the swine production health

plan, as well as other administrative or criminal sanctions, as appropriate.

Swine production system. A swine production enterprise that consists of multiple sites of production; i.e., sow herds, nursery herds, and growing or finishing herds, but not including slaughter plants or livestock markets, that are connected by ownership or contractual relationships, between which swine move while remaining under the control of a single owner or a group of contractually connected owners.

Swine production system accredited veterinarian. An accredited veterinarian who is named in a swine production health plan for a premises within a swine production system and who performs inspection of such premises and animals and other duties related to the movement of swine in a swine production system.

§ 71.2 Secretary to issue rule governing quarantine and interstate movement of diseased animals, including poultry.

When the Secretary of Agriculture shall determine the fact that poultry or other animals in any State, Territory, or the District of Columbia are affected with any contagious, infectious, or communicable disease of livestock or poultry for which, in his opinion, a quarantine should be established or that other basis for a quarantine exists, notice will be given of that fact, and a rule will be issued accordingly, placing in quarantine such State, Territory, or the District of Columbia, or specified portion thereof. This rule will either absolutely forbid the interstate movement of the quarantined animals from the quarantined area or will indicate the regulations under which interstate movements may be made.

[34 FR 15641, Oct. 9, 1969]

§ 71.3 Interstate movement of diseased animals and poultry generally prohibited.

(a) Animals or poultry affected with any of the following diseases, which are endemic to the United States: Equine piroplasmiasis, bovine piroplasmiasis or splenic fever, scabies in cattle, pseudorabies, acute swine erysipelas, tuberculosis, Johne's disease, brucellosis, scrapie, bluetongue, anthrax, chlamydiosis, poultry disease caused by Salmonella enteritidis serotype enteritidis, and Newcastle disease, or any other communicable disease which
