

Pt. 203

30 CFR Ch. II (7-1-02 Edition)

- 203.2 How can I get royalty relief?
- 203.3 Why must I pay a fee to request royalty relief?
- 203.4 How do the provisions in this part apply to different types of leases and projects?

**Subpart B--OCS Oil, Gas, and Sulfur
General**

ROYALTY RELIEF FOR END-OF-LIFE LEASES

- 203.50 Who may apply for end-of-life royalty relief?
- 203.51 How do I apply for end-of-life royalty relief?
- 203.52 What criteria must I meet to get relief?
- 203.53 What relief will MMS grant?
- 203.54 How does my relief arrangement for an oil and gas lease operate if prices rise sharply?
- 203.55 Under what conditions can my end-of-life royalty relief arrangement for an oil and gas lease be ended?
- 203.56 Does relief transfer when a lease is assigned?

ROYALTY RELIEF FOR DEEP WATER EXPANSION PROJECTS AND PRE-ACT DEEP WATER LEASES

- 203.60 Who may apply for deep water royalty relief?
- 203.61 How do I assess my chances for getting relief?
- 203.62 How do I apply for relief?
- 203.63 Does my application have to include all leases in the field?
- 203.64 How many applications may I file on a field or a development project?
- 203.65 How long will MMS take to evaluate my application?
- 203.66 What happens if MMS does not act in the time allowed?
- 203.67 What economic criteria must I meet to get royalty relief on an authorized field or project?
- 203.68 What pre-application costs will MMS consider in determining economic viability?
- 203.69 If my application is approved, what royalty relief will I receive?
- 203.70 What information must I provide after MMS approves relief?
- 203.71 How does MMS allocate a field's suspension volume between my lease and other leases on my field?
- 203.72 Can my lease receive more than one suspension volume?
- 203.73 How do suspension volumes apply to natural gas?
- 203.74 When will MMS reconsider its determination?
- 203.75 What risk do I run if I request a re-determination?
- 203.76 When might MMS withdraw or reduce the approved size of my relief?

- 203.77 May I voluntarily give up relief if conditions change?
- 203.78 Do I keep relief if prices rise significantly?
- 203.79 How do I appeal MMS's decisions related to Deep Water Royalty Relief?
- 203.80 When can I get royalty relief if I am not eligible for end-of-life or deep water royalty relief?

REQUIRED REPORTS

- 203.81 What supplemental reports do royalty-relief applications require?
- 203.82 What is MMS's authority to collect this information?
- 203.83 What is in an administrative information report?
- 203.84 What is in a net revenue and relief justification report?
- 203.85 What is in an economic viability and relief justification report?
- 203.86 What is in a G&G report?
- 203.87 What is in an engineering report?
- 203.88 What is in a production report?
- 203.89 What is in a deep water cost report?
- 203.90 What is in a fabricator's confirmation report?
- 203.91 What is in a post-production development report?

Subpart A--General Provisions

SOURCE: 63 FR 2616, Jan. 16, 1998, unless otherwise noted.

§ 203.0 What definitions apply to this part?

Authorized field means a field:

(1) Located in a water depth of at least 200 meters and in the Gulf of Mexico (GOM) west of 87 degrees, 30 minutes West longitude;

(2) That includes one or more pre-Act leases; and

(3) From which no current pre-Act lease produced, other than test production, before November 28, 1995.

Complete application means an original and two copies of the six reports consisting of the data specified in 30 CFR 203.81, 203.83 and 203.85 through 203.89, along with one set of digital information, which MMS has reviewed and found complete.

Determination means the binding decision by MMS on whether your field qualifies for relief or how large a royalty-suspension volume must be to make the field economically viable.

Development project means a project to develop one or more oil or gas reservoirs located on one or more contiguous leases that:

(1) Were issued in a sale held after November 28, 2000;

(2) Are located in a water depth of at least 200 meters and in the GOM wholly west of 87 degrees, 30 minutes West longitude; and

(3) Have had no production (other than test production) before the current application for royalty relief.

Draft application means the preliminary set of information and assumptions you submit to seek a nonbinding assessment on whether a field could be expected to qualify for royalty relief.

Eligible lease means a lease that:

(1) Is issued as part of an OCS lease sale held after November 28, 1995, and before November 28, 2000;

(2) Is located in the Gulf of Mexico in water depths of 200 meters or deeper;

(3) Lies wholly west of 87 degrees, 30 minutes West longitude; and

(4) Is offered subject to a royalty suspension volume.

Expansion project means a project you propose in a Development Operations Coordination Document (DOCD) or a Supplement approved by the Secretary of the Interior after November 28, 1995, that will significantly increase the ultimate recovery of resources from one

or more reservoirs that have not produced on a pre-Act lease or a lease issued in a sale held after November 28, 2000. A significant increase does not simply extend recovery from reservoirs already in production. For a pre-Act lease, the expansion project must also involve a substantial capital investment (e.g., fixed-leg platform, subsea template and manifold, tension-leg platform, multiple well project, etc.). For a lease issued after November 28, 2000, the expansion project must involve a new well drilled into a reservoir that has not previously produced. In all cases, all leases in an expansion project must be wholly located in a water depth of at least 200 meters and in the GOM wholly west of 87 degrees, 30 minutes West longitude.

Fabrication (or start of construction) means evidence of an irreversible commitment to a concept and scale of development. Evidence includes copies of a binding contract between you (as applicant) and a fabrication yard, a letter from a fabricator certifying that continuous construction has begun, and a receipt for the customary down payment.

Field means an area consisting of a single reservoir or multiple reservoirs all grouped on, or related to, the same general geological structural feature or stratigraphic trapping condition. Two or more reservoirs may be in a field, separated vertically by intervening impervious strata or laterally by local geologic barriers, or both.

Lease means a lease or unit.

New production means any production from a current pre-Act lease from which no royalties are due on production, other than test production, before November 28, 1995. Also, it means any additional production resulting from new lease-development activities on a lease issued in a sale after November 28, 2000, or a current pre-Act lease under a DOCD or a Supplement approved by the Secretary of the Interior after November 28, 1995.

Nonbinding assessment means an opinion by MMS of whether your field could qualify for royalty relief. It is based on your draft application and does not entitle the field to relief.

Performance conditions means minimum conditions you must meet, after

§ 203.1

30 CFR Ch. II (7-1-02 Edition)

we have granted relief and before production begins, to remain qualified for that relief. If you do not meet each one of these performance conditions, we consider it a change in material fact significant enough to invalidate our original evaluation and approval.

Pre-Act lease means a lease that:

(1) Results from a sale held before November 28, 1995;

(2) Is located in the GOM in water depths of 200 meters or deeper; and

(3) Lies wholly west of 87 degrees, 30 minutes West longitude.

Production means all oil, gas, and other relevant products you save, remove, or sell from a tract or those quantities allocated to your tract under a unitization formula, as measured for the purposes of determining the amount of royalty payable to the United States.

Project means any activity that requires at least a permit to drill.

Redetermination means our reconsideration of our determination on royalty relief because you request it after:

(1) We have rejected your application;

(2) We have granted relief but you want a larger suspension volume;

(3) We withdraw approval; or

(4) You renounce royalty relief.

Renounce means action you take to give up relief after we have granted it and before you start production.

Royalty suspension (RS) lease means a lease that:

(1) Is issued as part of an OCS lease sale held after November 28, 2000;

(2) Is in locations or planning areas specified in a particular Notice of OCS Lease Sale offering that lease; and

(3) Is offered subject to a royalty suspension specified in a Notice of OCS Lease Sale published in the FEDERAL REGISTER.

Sunk costs for an authorized field means the after-tax eligible costs that you (not third parties) incur for exploration, development, and production from the spud date of the first discovery on the field to the date we receive your complete application for royalty relief. The discovery well must be qualified as producible under part 250, subpart A of this title. Sunk costs include the rig mobilization and mate-

rial costs for the discovery well that you incurred before its spud date.

Sunk costs for an expansion or development project means the after-tax eligible costs that you (not third parties) incur for only the first well that encounters hydrocarbons in the reservoir(s) included in the application and that meets the producibility requirements under part 250, subpart A of this chapter on each lease participating in the application. Sunk costs include rig mobilization and material costs for the discovery wells that you incurred before their spud dates.

Withdraw means action we take on a field that has qualified for relief if you have not met one or more of the performance conditions.

[63 FR 2616, Jan. 16, 1998, as amended at 67 FR 1872, Jan. 15, 2002]

§ 203.1 What is MMS's authority to grant royalty relief?

The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1337, as amended by the OCS Deep Water Royalty Relief Act (DWRRA), Public Law 104-58, authorizes us to grant royalty relief in three situations.

(a) Under 43 U.S.C. 1337(a)(3)(A), we may reduce or eliminate any royalty or a net profit share specified for an OCS lease to promote increased production.

(b) Under 43 U.S.C. 1337(a)(3)(B), we may reduce, modify, or eliminate any royalty or net profit share to promote development, increase production, or encourage production of marginal resources on certain leases or categories of leases. This authority is restricted to leases in the Gulf of Mexico (GOM) that are west of 87 degrees, 30 minutes West longitude.

(c) Under 43 U.S.C. 1337(a)(3)(C), we may suspend royalties for designated volumes of new production from any lease if:

(1) Your lease is in deep water (water at least 200 meters deep);

(2) Your lease is in designated areas of the GOM (west of 87 degrees, 30 minutes West longitude);

(3) Your lease was acquired in a lease sale held before the DWRRA (before November 28, 1995);

(4) We find that your new production would not be economic without royalty relief; and
