

Department of the Army, DoD

§ 634.24

(2) Name of the installation will be specified on a separate tab abutting the decal. Each Service or DLA may choose optional color codes of the registrant. Army installations having vehicle registration programs will use the following standard color scheme for the installation tab:

- (i) Blue-officers.
- (ii) Red-enlisted.
- (iii) Green-DA civilian employees (including NAF employees).
- (iv) Black-Contractor personnel and other civilians employed on the installation.

(3) An expiration tab identifying the month and year (“6-97”) or simply the year (“97”) will be abutted to the decal. For identification purposes, the date of expiration will be shown in bold block numbers on a lighter contrasting background such as traffic yellow, lime, or orange.

(4) The decal, installation tab, and expiration tab will be theft resistant when applied to glass, metal, painted, or rubberized surfaces after full adhesion had developed and will be manufactured to “tear” or “self destruct” when any attempt to remove it is made with a sharp instrument or chemical.

(5) On Army installations, a single decal with tabs will be prominently affixed to the front windshield or bumper of registered vehicles. Local policy will specify the exact placement. Some States prohibit or restrict placement of decals on windshields. In such cases, State law will be complied with.

§ 634.22 Termination or denial of registration.

Installation commanders or their designated representatives will terminate POV registration or deny initial registration under the following conditions (decal and tabs will be removed from the vehicle when registration is terminated):

- (a) The owner fails to comply with the registration requirements. (See § 634.20)
- (b) The owner sells or disposes of the POV, is released from active duty, is separated from the Service, is transferred to a new duty station, or terminates civilian employment with a military Service or DOD agency.

(c) The owner is other than an active duty military or civilian employee and discontinues regular operation of the POV on the installation.

(d) The owner’s State, overseas command, or host nation driver’s license has been suspended or revoked, or the installation driving privilege has been revoked. Where vehicle registration is terminated in conjunction with the revocation of installation driving privileges, the affected person must apply to re-register the POV after the revocation expires. Registration should not be terminated if other family members having installation driving privileges require use of the vehicle.

§ 634.23 Specified consent to impoundment.

Personnel registering POVs on Service or DLA installations must consent to the impoundment policy. POV registration forms will contain or have appended to them a certificate with the following statement:

I am aware that (insert number and title of separate Service or DLA directive) and the installation traffic code provide for the removal and temporary impoundment of privately owned motor vehicles that are either parked illegally for unreasonable periods, interfering with military operations, creating a safety hazard, disabled by incident, left unattended in a restricted or controlled area, or abandoned. I agree to reimburse the United States for the cost of towing and storage should my motor vehicle(s), because of such circumstances, be removed and impounded.

Subpart D—Traffic Supervision

SECTION I—TRAFFIC PLANNING AND CODES

§ 634.24 Traffic planning.

(a) Safe and efficient movement of traffic on an installation requires traffic supervision. A traffic supervision program includes traffic circulation planning, supervision, and control of motor vehicle traffic; publication and enforcement of traffic laws and regulations; and investigation of motor vehicle accidents.

(b) Installation commanders will develop traffic circulation plans that provide for the safest and most efficient use of primary and secondary roads.
