

Department of the Army, DoD

§ 650.52

(2) Status of compliance with applicable water quality standards and permit provisions.

(3) Status of corrective projects.

(4) Summary of litigation actions, if any.

(e) Noise pollution control.

(1) Summary of major sources.

(2) Status of corrective measures.

(3) Summary of complaints/litigation, if any.

(f) Radiation pollution control.

(1) Summary of ionizing sources.

(2) Status of protective measures.

(g) Solid waste management.

(1) Summary of waste disposal operations.

(2) Waste recycling (equipment installed and in use, quantities and types of materials recycled, funds derived from sale of waste materials and use made of such funds).

(h) Toxic and hazardous materials management.

(1) Identification of significant toxic materials being controlled.

(2) Summary of types and protective measures for control of oil spills, disposal of toxic chemicals, etc.

(3) Identification of unique problems.

(i) Land management.

(1) Summary of conservation activities (forest, fish and wildlife management, etc.).

(2) Summary of historical and archaeological sites and facilities and related preservation activities.

(3) Summary of installation attractiveness program and activities.

(j) Environmental research programs (if applicable).

(1) Summary of ongoing environmental research activities by pollution control media (air, water, etc.).

(2) Summary of technology-application activities.

(3) Identification of new research requirements.

(k) Environmental education, training and information programs.

(1) Status of individual and unit education training activities.

(2) Summary of environmental protection courses given or attended (TRADOC Report will include courses and student attendance at courses in Army School System).

(3) Summary of public information activities.

(1) Environmental enhancement activities.

(1) Summary of environmental enhancement activities and projects conducted in support of Keep America Beautiful, Defense Community Service Program, etc. (includes activities by active and Reserve units).

§ 650.12 Executive Order 11752.

Figure 1-1 is the Presidential Executive Order dated December 17, 1973¹ which sets forth the policy and standards for the prevention, control, and abatement of environmental pollution at DA installations.

§ 650.13 Endangered species.

All matters concerning the Army's policy and regulatory guidance reflecting the Endangered Species Act of 1973 (Pub. L. 93-205) is covered in AR 420-74.

Subpart B—Environmental Considerations in DA Actions [Reserved]

Subpart C—Water Resources Management

GENERAL

§ 650.51 Purpose.

This chapter sets forth guidance and procedure for the DA implementation of the Federal Water Pollution Control Act of 1972 (FWPCA) (Pub. L. 92-500) and the water pollution control regulations promulgated by the U.S. Environmental Protection Agency, U.S. Coast Guard, U.S. Army Corps of Engineers and State and regional water pollution control authorities. Additional guidance regarding discharge of hazardous and toxic materials appears in subpart F of this part.

§ 650.52 Goals and objectives.

The Department of Army goal is to conserve water resources and protect them from contamination by controlling all sources of pollutants in accordance with applicable Federal, State or

¹38 FR 34793, December 19, 1973; 3A CFR, 1973 Comp., p. 240.

regional standards and vigorously contribute to the attainment of the national goal of eliminating the discharge of pollutants by 1985. Inherent in this goal are the following objectives:

(a) Identify, treat, monitor, control and dispose of all waterborne wastes produced by Army fixed and mobile facilities in accordance with published Federal, State and regional standards.

(b) Conserve water resources used in the conduct of basic activities on all Army installations by instituting economy measures and by reuse when practicable.

(c) Minimize soil erosion and attendant pollution caused by rapid and uncontrolled runoff into streams and rivers.

(d) Provide drinking water that satisfies the potability standards published by the US Environmental Protection Agency (EPA) as interpreted by The Surgeon General of the Army (see § 650.57).

(e) Comply with the provisions of the Federal Water Pollution Control Act (Pub. L. 92-500) by obtaining and complying with permits issued by EPA under the National Pollutant Discharge Elimination System (NPDES) and the Corps of Engineers for the discharge of dredged or fill material.

(f) Comply with the provisions of the Marine Protection, Research and Sanctuaries Act of 1972 (Pub. L. 92-532) by obtaining and complying with permits issued by EPA for the discharge of any material other than dredged material into ocean waters and by the Corps of Engineers for the discharge of dredged material into ocean waters.

§ 650.53 Explanation of terms.

(a) *National Pollutant Discharge Elimination System (NPDES)*. The system for issuing and conditioning permits under a schedule of compliance and denying permits for the discharge of pollutants from point sources into the navigable waters, which is administered by the Administrator of the Environmental Protection Agency pursuant to sections 402 and 405 of Pub. L. 92-500. The following additional terms have the following meanings with respect to the NPDES program and the FWPCA:

(1) *Pollutant*. Solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, municipal, and agricultural waste discharge into water. It does not mean "sewage from vessels."

(2) *Point source*. Any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged.

(3) *Discharge of a pollutant*. Any addition of any pollutant to navigable waters from any point source.

(4) *Permit*. Any permit or equivalent document or requirement issued by the Environmental Protection Agency to regulate the disposal of pollutants.

(5) *Schedule of compliance*. A schedule of remedial measures including sequence of actions or operations leading to compliance with an effluent limitation, other limitation, prohibition, or standard.

(6) *Navigable waters*. All navigable waters of the United States (33 CFR part 329); tributaries of navigable waters of the United States; interstate waters; intrastate lakes, rivers, and streams which are utilized by interstate travelers for recreational or other purposes; intrastate lakes, rivers, and streams from which fish or shellfish are taken and sold in interstate commerce; and intrastate lakes, rivers, and streams which are utilized for industrial purposes by industries in interstate commerce.

(b) *Treatment works*. Any facility, method or system for the storage, treatment, recycling, or reclamation of municipal sewage or industrial wastes of a liquid nature, including waste in combined storm water and sanitary sewer systems.

(c) *Material into ocean waters*. Matter of any kind or description, but not limited to solid waste, incinerator residue,
