AUTHORITY: National Historic Preservation Act of 1966, as amended, 16 U.S.C. 470 *et seq.*, and E.O. 11593.

SOURCE: 46 FR 56187, Nov. 16, 1981, unless otherwise noted.

§ 60.1 Authorization and expansion of the National Register.

(a) The National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470 *et seq.*, as amended, authorizes the Secretary of the Interior to expand and maintain a National Register of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering and culture. The regulations herein set forth the procedural requirements for listing properties on the National Register.

(b) Properties are added to the National Register through the following processes.

(1) Those Acts of Congress and Executive orders which create historic areas of the National Park System administered by the National Park Service, all or portions of which may be determined to be of historic significance consistent with the intent of Congress;

(2) Properties declared by the Secretary of the Interior to be of national significance and designated as National Historic Landmarks;

(3) Nominations prepared under approved State Historic Preservation Programs, submitted by the State Historic Preservation Officer and approved by the NPS;

(4) Nominations from any person or local government (only if such property is located in a State with no approved State Historic Preservation Program) approved by the NPS and;

(5) Nominations of Federal properties prepared by Federal agencies, submitted by the Federal Preservation Officer and approved by NPS.

§ 60.2 Effects of listing under Federal law.

The National Register is an authoritative guide to be used by Federal, State, and local governments, private groups and citizens to identify the Nation's cultural resources and to indicate what properties should be considered for protection from destruction or impairment. Listing of private property on the National Register does not prohibit under Federal law or regulation any actions which may otherwise be taken by the property owner with respect to the property.

(a) The National Register was designed to be and is administered as a planning tool. Federal agencies undertaking a project having an effect on a listed or eligible property must provide the Advisory Council on Historic Preservation a reasonable opportunity to comment pursuant to section 106 of the National Historic Preservation Act of 1966, as amended. The Council has adopted procedures concerning, *inter alia*, their commenting responsibility in 36 CFR part 800. Having complied with this procedural requirement the Federal agency may adopt any course of action it believes is appropriate. While the Advisory Council comments must be taken into account and integrated into the decisionmaking process, program decisions rest with the agency implementing the undertaking.

(b) Listing in the National Register also makes property owners eligible to be considered for Federal grants-in-aid for historic preservation.

National Park Service, Interior

§ 60.3

(c) If a property is listed in the National Register, certain provisions of the Tax Reform Act of 1976 as amended by the Revenue Act of 1978 and the Tax Treatment Extension Act of 1980 may apply. These provisions encourage the preservation of depreciable historic structures by allowing favorable tax treatments for rehabilitation, and discourage destruction of historic buildings by eliminating certain otherwise available Federal tax provisions both for demolition of historic structures and for new construction on the site of demolished historic buildings. Owners of historic buildings may benefit from the investment tax credit provisions of the Revenue Act of 1978. The Economic Recovery Tax Act of 1981 generally replaces the rehabilitation tax incentives under these laws beginning January 1, 1982 with a 25% investment tax credit for rehabilitations of historic commercial, industrial and residential buildings. This can be combined with a 15-year cost recovery period for the adjusted basis of the historic building. Historic buildings with certified rehabilitations receive additional tax savings by their exemption from any requirement to reduce the basis of the building by the amount of the credit. The denial of accelerated depreciation for a building built on the site of a demolished historic building is repealed effective January 1, 1982. The Tax Treatment Extension Act of 1980 includes provisions regarding charitable contributions for conservation purposes of partial interests in historically important land areas or structures.

(d) If a property contains surface coal resources and is listed in the National Register, certain provisions of the Surface Mining and Control Act of 1977 require consideration of a property's historic values in the determination on issuance of a surface coal mining permit.

§ 60.3 Definitions.

(a) *Building*. A building is a structure created to shelter any form of human activity, such as a house, barn, church, hotel, or similar structure. Building may refer to a historically related complex such as a courthouse and jail or a house and barn.

Examples

Molly Brown House (Denver, CO)
Meek Mansion and Carriage House (Hayward, CA)
Huron County Courthouse and Jail (Norwalk, OH)
Fairtosh Plantation (Durham vicinity, NC)

(b) *Chief elected local official*. Chief elected local official means the mayor, county judge, county executive or otherwise titled chief elected administrative official who is the elected head of the local political jurisdiction in which the property is located.

(c) *Determination of eligibility*. A determination of eligibility is a decision by the Department of the Interior that a district, site, building, structure or object meets the National Register criteria for evaluation although the property is not formally listed in the National Register. A determination of eligibility does not make the property eligible for such benefits as grants, loans, or tax incentives that have listing on the National Register as a prerequisite.

(d) *District*. A district is a geographically definable area, urban or rural, possessing a significant concentration, linkage, or continuity of sites, buildings, structures, or objects united by past events or aesthetically by plan or physical development. A district may also comprise individual elements separated geographically but linked by association or history.

Examples

Georgetown Historic District (Washington, DC)
Martin Luther King Historic District (Atlanta, GA)
Durango-Silverton Narrow-Gauge Railroad (right-of-way between Durango and Silverton, CO)

(e) *Federal Preservation Officer*. The Federal Preservation Officer is the official designated by the head of each Federal agency responsible for coordinating that agency's activities under the National Historic Preservation Act of 1966, as amended, and Executive Order 11593 including nominating properties under that agency's ownership or control to the National Register.
