

using existing programming. These direct costs will include the cost of operating the central processing unit for that portion of operating time that is directly attributable to searching for records and the operator/programmer salary, *i.e.*, basic pay plus 16 percent, apportionable to the search. A charge shall also be made for any substantial amounts of special supplies or materials used to contain, present, or make available the output of computers, based upon the prevailing levels of costs to the CSB for the type and amount of such supplies or materials that are used. Nothing in this paragraph shall be construed to entitle any person or entity, as of right, to any services in connection with computerized records, other than services to which such person or entity may be entitled under the provisions of this section or §1601.32. The CSB will not alter or develop programming to conduct a search.

(iii) *Unproductive searches.* The CSB will charge search fees even if no records are found which are responsive to the request or if the records found are exempt from disclosure.

(2) *Duplication.* Records will be reproduced at a rate of \$0.25 per page. For copies prepared by computer, such as tapes or printouts, the requester shall be charged the actual cost, including operator time, of production of the tape or printout. For other methods of reproduction, the actual direct costs of reproducing the record(s) shall be charged.

(3) *Review.* Only commercial-use requesters may be charged for time spent reviewing records to determine whether they are exempt from mandatory disclosure. Charges may be assessed only for initial review, *i.e.*, the review undertaken the first time the CSB analyzes the applicability of a specific exemption to a particular record or portion of a record. Records or portions of records withheld in full under an exemption that is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review are properly assessable.

(4) *Other services and materials.* Where the CSB elects, as a matter of adminis-

trative discretion, to comply with a request for a special service or materials, such as certifying that records are true copies or sending records by special methods, the actual direct costs of providing the service or materials will be charged.

§ 1601.31 Fees to be charged—categories of requesters.

(a) *Fees for various requester categories.* Paragraphs (b) through (e) of this section state, for each category of requester, the types of fees generally charged by the CSB. However, for each of these categories, the fees may be limited, waived or reduced in accordance with the provisions set forth in §1601.32(c). If the CSB has reasonable cause to doubt the purpose specified in the request for which a requester will use the records sought, or where the purpose is not clear from the request itself, the CSB will seek clarification before assigning the request a specific category.

(b) *Commercial use requester.* The CSB shall charge fees for records requested by persons or entities making a commercial use request in an amount that equals the full direct costs for searching for, reviewing for release, and reproducing the records sought. Commercial use requesters are not entitled to 2 hours of free search time nor 100 free pages of reproduction of records. In accordance with §1601.30, commercial use requesters may be charged the costs of searching for and reviewing records even if there is ultimately no disclosure of records.

(c) *Educational and noncommercial scientific institutions.* The CSB shall charge fees for records requested by, or on behalf of, educational institutions and noncommercial scientific institutions in an amount which equals the cost of reproducing the records responsive to the request, excluding the cost of reproducing the first 100 pages. No search fee shall be charged with respect to requests by educational and noncommercial scientific institutions. For a request to be included in this category, requesters must show that the request being made is authorized by and under the auspices of a qualifying institution, and that the records are not sought for commercial use but are

sought in furtherance of scholarly research (if the request is from an educational institution) or scientific research (if the request is from a non-commercial scientific institution).

(d) *News media.* The CSB shall charge fees for records requested by representatives of the news media in an amount which equals the cost of reproducing the records responsive to the request, excluding the costs of reproducing the first 100 pages. No search fee shall be charged with respect to requests by representatives of the news media. For a request to be included in this category, the requester must qualify as a representative of the news media and the request must not be made for a commercial use. A request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for commercial use.

(e) *All other requesters.* The CSB shall charge fees for records requested by persons or entities that are not classified in any of the categories listed in paragraphs (b), (c), or (d) of this section in an amount that equals the full reasonable direct cost of searching for and reproducing records that are responsive to the request, excluding the first 2 hours of search time and the cost of reproducing the first 100 pages of records. In accordance with §1601.30, requesters in this category may be charged the cost of searching for records even if there is ultimately no disclosure of records, excluding the first 2 hours of search time.

(f) For purposes of the exceptions contained in this section on assessment of fees, the word *pages* refers to paper copies of 8½ × 11 inches or 11 × 14 inches. Thus, requesters are not entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or a computer disk containing the equivalent of 100 pages of computer printout meets the terms of the exception.

(g) For purposes of paragraph (e) of this section, the term *search time* has as its basis, manual search. To apply this term to searches made by computer, the CSB will determine the hourly cost of operating the central processing unit and the operator's hourly salary plus 16 percent. When the cost of the

search (including the operator time and the cost of operating the computer to process a request) equals the equivalent dollar amount of 2 hours of the salary plus 16 percent of the person performing the search, *i.e.*, the operator, the CSB will begin assessing charges for the computer.

§ 1601.32 Limitations on charging fees.

(a) *In general.* Except for requesters seeking records for a commercial use as described in §1601.31(b), the CSB will provide, without charge, the first 100 pages of duplication and the first 2 hours of search time, or their cost equivalent.

(b) *No fee charged.* The CSB will not charge fees to any requester, including commercial use requesters, if the cost of collecting a fee would be equal to or greater than the fee itself. The elements to be considered in determining the cost of collecting a fee are the administrative costs of receiving and recording a requester's remittance and of processing the fee.

(c) *Waiver or reduction of fees.* The CSB may grant a waiver or reduction of fees if the CSB determines that the disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Federal government, and the disclosure of the information is not primarily in the commercial interest of the requester. Requests for a waiver or reduction of fees will be considered on a case-by-case basis. The following factors will be considered by the CSB in determining whether a waiver or reduction of fees is in the public interest:

(i) *The subject of the request.* Whether the subject of the requested records concerns the operations or activities of the government. The subject matter of the requested records, in the context of the request, must specifically concern identifiable operations or activities of the Federal government with a connection that is direct and clear, not remote or attenuated. Furthermore, the records must be sought for their informative value with respect to those government operations or activities; a request for access to records for their intrinsic informational content alone
