

§ 51b.605

(b) An application for a continuation grant must be submitted for each funding period. This continuation application must include the following:

(1) A budget and justification for the grant funds requested.

(2) A summary of the progress achieved during the previous budget period.

(3) A description of any changes in the information shown in the project application.

§ 51b.605 How will grant applications be evaluated and the grants awarded?

(a) Within the limits of funds available, the Secretary may award a grant to assist in meeting the costs of special activities authorized under section 318(b) of the Act.

(b) Grant applications will be reviewed and evaluated according to the following criteria:

(1) Is there adequate evidence that the proposed project is needed and that the outcome has potential to directly benefit the national venereal disease control effort?

(2) Are the project objectives specific, measurable, realistic, time phased, and related to promoting the purposes of section 318?

(3) Is the method of operation logical and clearly related to project objectives, and does it describe how the applicant intends to proceed particularly with activities which are complex, interrelated, or unprecedented?

(4) Does the method of operation include an assessment of any possible impact, both positive and negative, that the conduct of the proposed initiative might have upon the established venereal disease control program in the locality or localities in which the project will be undertaken?

(5) Does the proposal include a comprehensive and realistic plan for the evaluation of the project, and specify the measures and instruments of measurement to be used?

(6) Is the budget request reasonable and consistent with the intended use of grant funds?

(7) If the applicant intends only to evaluate an existing disease prevention and control approach, are the objectives substantially different from those

42 CFR Ch. I (10–1–02 Edition)

which could be met by routine program evaluation?

§ 51b.606 How can grant funds be used?

(a) Grant funds may be used for the costs associated with planning, organizing, and conducting applied research, demonstrations, and public information and education programs.

(b) Grant funds may also be used to reimburse individuals who agree to be participants in the applied research projects. This reimbursement, however, must be justified as necessary and reasonable. A schedule of reimbursements must be submitted with the application and approved as part of the program plan.

(c) Grant funds may not be used to supplant funds supporting existing venereal disease control services provided by a State or locality.
