§ 2806.1 Corridor designation.

(a) The authorized officer may, based upon his/her motion or receipt of an application, designate right-of-way corridors across any public lands in order to minimize adverse environmental impacts and the proliferation of separate rights-of-way. The designation of corridors shall not preclude the granting of separate rights-of-way over, upon, under or through the public lands where the authorized officer determines that confinement to a corridor is not appropriate.

(b) Any existing transportation and utility corridor that is capable of accommodating an additional compatible right-of-way may be designated as a right-of-way corridor by the authorized officer without further review as required in §2806.2 of this title. Subsequent right-of-way grants shall, to the extent practical and as determined by the authorized officer, be confined to designated corridors, however, the designation of a right-of-way corridor is not a commitment by the authorized officer to issue right-of-way grants within the corridor. All applications for right-of-way grants, including those within designated corridors, are subject to the procedure for approval set forth in subpart 2802 of this title.
