the landholder certification and reporting forms.

**§ 426.19 District responsibilities.**

A district that delivers irrigation water to nonexempt land under a contract with the United States must:

(a) Provide information to landholders concerning the requirements of Federal reclamation law and these regulations;

(b) Provide Reclamation, as required by these regulations or upon request, and in a form suitable to Reclamation, records and information as Reclamation may deem reasonably necessary to implement the RRA and other provisions of Federal reclamation law;

(c) Be responsible for payments to Reclamation of all appropriate charges specified in these regulations. Districts must collect the appropriate charges from each landholder based on the landholder's acreage limitation status, landholdings, and entitlements, and must not average the costs over the entire district, unless the charges prove uncollectible from the responsible landholders;

(d) Distribute, collect, and review landholder certification and reporting forms;

(e) File and retain landholder certification and reporting forms. Districts must retain superseded landholder certification and reporting forms for 6 years; thereafter, districts may destroy such superseded forms, except:

(1) Districts must keep on file the last fully completed standard certification or reporting form, in addition to the current verification form; or

(2) If Reclamation specifically requests a district to retain superseded forms beyond 6 years.

(f) Comply with the requirements of the Privacy Act of 1974, with respect to landholder certification and reporting forms;

(g) Annually summarize information provided on landholder certification and reporting forms on separate summary forms provided by Reclamation and submit these forms to Reclamation on or before the date established by the appropriate regional director;

(h) Withhold deliveries of irrigation water to any landholder not eligible to receive irrigation water under the cer-

tification or reporting requirements or any other provision of Federal reclamation law and these regulations; and

(i) Return to Reclamation, for deposit as a general credit to the Reclamation fund, all revenues received from the delivery of water to ineligible land. For purposes of these regulations only, this does not include revenues from any charges that may be assessed by the district to cover district operation, maintenance, and administrative expenses.

**§ 426.20 Assessment of administrative costs.**

(a) *Assessment of administrative costs for delivery of water to ineligible land.* Reclamation will assess a district administrative costs as described in paragraph (e) of this section if the district delivers irrigation water to land that was ineligible because the landholders did not submit certification or reporting forms prior to the receipt of irrigation water in accordance with § 426.18; or to ineligible excess land as provided in § 426.12.

(1) Reclamation will apply the assessment on a yearly basis in each district for each landholder that received irrigation water in violation of § 426.18, or for each landholder that received irrigation water on ineligible land as specified above.

(2) In applying the assessment to legal entities, compliance by an entity will be treated independently from compliance by its part owners or beneficiaries.

(3) The assessment in paragraph (a) of this section will be applied independently of the assessment specified in paragraph (b) of this section.

(b) *Assessment of administrative costs when form corrections are not made.* Reclamation will assess a district for the administrative costs described in paragraph (e) of this section, unless the district provides Reclamation with requested reporting or certification form corrections within 60-calendar days of the date of Reclamation's written request. If Reclamation receives the required corrections within this 60-calendar day time period, Reclamation will consider the requirements of § 426.18 satisfied.
