past, present, or planned interests relating to the work to be performed and bearing on whether they, including their chief executives, directors, or any proposed consultant or subcontractor, may have a potential organizational conflict of interest.

(b) *Failure to disclose information.* Any prospective contractor failing to provide full disclosure, certification, or other required information will not be eligible for award. Nondisclosure or misrepresentation of any relevant information may also result in disqualification from award, termination of the contract for default, or debarment from Government contracts, as well as other legal action or prosecution. In response to solicitations, EPA will consider any inadvertent failure to provide disclosure certification as a "minor informality" (as explained in FAR 14.405); however, the prospective contractor must correct the omission promptly.

(c) *Exception.* Where the Contractor has previously submitted a conflict of interest certification or disclosure for a contract, only an update of such statement is required when the contract is modified.
