1816.603 Letter contracts.

1816.603-2 Application.

(a) Centers must ensure that NASA liabilities and commitments are minimized under letter contracts. When a letter contract is justified and program requirements can be severed into smaller, discreet efforts, the work authorized by the letter contract must be limited to the minimum severable effort required to satisfy the urgent program requirements. The remaining requirements may not be initially included in the letter contract and must be acquired through a separate fully priced and definitized contract action.
