Subpart 1842.15—Contractor Performance Information

SOURCE: 63 FR 42756, Aug. 11, 1998, unless otherwise noted.

1842.1501 General.

Communications with contractors are vital to improved performance and this is NASA's primary objective in evaluating past performance. Other objectives include providing data for future source selections. While the evaluations must reflect both shortcomings and achievements during performance, they should also elicit from the contractors their views on impediments to improved performance emanating from the Government or other sources.

1842.1502 Policy.

(a) Within 60 days of every anniversary of the award of a contract having a term exceeding one year, contracting officers must conduct interim evaluations of performance on contracts subject to FAR Subpart 42.15 and this subpart. Interim evaluations are not required on contracts whose award anni-

versary is within 3 months of the end of the contract period of performance. The final evaluation will include an evaluation of the period between the last interim evaluation and the end of the contract period of performance. Interim performance evaluations are optional for SBIR/STTR Phase II contracts. A final evaluation summarizing all performance must be conducted on all contracts.

§ 1842.1503 Procedures (NASA Supplement paragraphs (a) and (b)).

(a) The contracting officer shall determine who (e.g., the technical office or end users of the products or services) evaluates appropriate portions of the contractor's performance. The evaluations are subjective in nature. Nonetheless, the contracting officer, who has responsibility for the evaluations, shall ensure that they are reasonable.

(b) NASA Form 1680, entitled, "Evaluation of Performance," shall be used to document evaluations. This provides for a five-tiered rating (using the definitions for award fee evaluation scoring found in 1816.405-275) covering the following attributes: quality, timeliness, price or control of costs (not required for firm-fixed-price contracts or firm-fixed-price contracts with economic price adjustment), and other considerations. Evaluations used in determining award fee payments satisfy the requirements of this subpart and do not require completion of NASA Form 1680. In addition, hybrid contracts containing both award fee and non-award fee portions do not require completion of NASA Form 1680. Contracting Officers shall ensure that the Government discusses all evaluations with contractors and shall record the date and the participants on the evaluation form. Contracting officers shall sign and date the evaluation after considering any comments received from the contractor within 30 days of the contractor's receipt of the evaluation. If a contractor in its timely comments disagrees with an evaluation and requests a review at a level above the contracting officer, it shall be provided within 30 days. While the FAR forbids
