

redetermination, and fixed-price incentive contracts when the following dollar, period of performance, and scope criteria are met:

Contract value/scope	Period of performance	533M	533Q
\$500K to \$999K	1 year or more	Required	Optional.
\$1,000,000 and over	Less than 1 year	Required	Optional.
\$1,000,000 and over	1 year or more	Required	Required.

(2) When it is probable that a contract will ultimately meet the criteria in paragraph (b)(1) of this section through change orders, supplemental agreements, etc., the reporting requirement must be implemented in the contract based on the estimated final contract value at the time of award.

(3) NF 533Q reporting may be waived by the contracting officer, with the concurrence of the center chief financial officer and cognizant project manager, for support service or task order contracts, when NF 533M reports and other data are sufficient to ensure accurate monthly cost accruals, evaluation of the contractor's cost performance, and forecasting of resource requirements.

(4) Where a specific contractual requirement differs from the standard system set forth in NPG 9501.2, NASA Contractor Financial Management Reporting, but is determined to be in the best interests of the Government and does not eliminate any of the data elements required by the standard NF 533 formats, it may be approved by the contracting officer with the concurrence of the center chief financial officer and the project manager. Such approval shall be documented and retained, with the supporting rationale, in the contract file.

(5) The contractor's internal automated printout reports may be substituted for the 533 reporting formats only if the substitute reports contain all the data elements that would be provided by the corresponding 533's. The contracting officer shall coordinate any proposed substitute with the installation financial management office.

(c) Contract requirements. (1) Reporting requirements, including a description of reporting categories, shall be detailed in the procurement request, and reports shall be required by inclusion of the clause prescribed in

1842.7202. The contract schedule shall include report addressees and numbers of copies. Reporting categories shall be coordinated with the center financial management office to ensure that data required for agency cost accounting will be provided by the reports. Reporting dates shall be in accordance with NPG 9501.2, except that earlier submission is encouraged whenever feasible. No due date shall be permitted which is later than the date by which the center financial management office needs the data to enter an accurate monthly cost accrual in the accounting system.

(2) The contractor shall be required to submit an initial report in the NF 533Q format, time phased for the expected life of the contract, within 30 days after authorization to proceed has been granted. NF 533M reporting will begin no later than 30 days after incurrence of cost. NF 533Q reporting begins with the initial report.

1842.7202 Contract clause.

The contracting officer shall insert the clause at 1852.242-73, NASA Contractor Financial Management Reporting, in solicitations and contracts when any of the NASA Form 533 series of reports is required from the contractor.

[62 FR 36721, July 9, 1997]

Subpart 1842.73—Audit Tracking and Resolution

1842.7301 NASA external audit follow-up system.

(a) This section implements OMB Circular No. A-50 and NASA Policy Directive (NPD) 1200.10 "Internal Management Controls and Audit Liaison and Followup", which provide more detailed guidance. Recommendations from external audits (OMB Circular No. A-133, Audits of States, Local Governments, and Non-Profit Institutions)

shall be resolved by formal review and approval procedures analogous to those at 1815.406-171.

(b) The external audit followup system tracks all contract and OMB Circular No. A-133 audits where NASA has resolution and disposition authority. The objective of the tracking system is to ensure that audit recommendations are resolved within 6 months after receipt of the audit report and corrected as expeditiously as possible.

(c)(1) The identification and tracking of contract audit reports under NASA cognizance are accomplished in cooperation with the DCAA.

(2) Identification and tracking of OMB Circular No. A-133 audit reports are accomplished in cooperation with the NASA Office of the Inspector General (OIG).

(d)(1) All reportable contract audit reports as defined by Chapter 15, Section 6, of the DCAA Contract Audit Manual (CAM) shall be reported quarterly to the Headquarters Office of Procurement (Code HK); and

(2) Only OMB Circular No. A-133 audit reports involving the following shall be reported quarterly to Code HK:

(i) A significant management control issue; or

(ii) Questioned costs of \$10,000 or more due to an audit finding (see Subpart E-Auditor, paragraph 510 of OMB Circular No. A-133).

(3) NASA contracting officers will maintain a dialogue with DOD Administrative Contracting Officers (ACO) who have been delegated activities on NASA contracts. A review will be conducted no less frequently than semi-annually, and the status and disposition of significant audit findings will be documented in the contract file. During this review, NASA contracting officers should discuss with the ACO both prime and subcontract audit reports that have been delegated to DOD. Should these reports contain any findings or recommendations, the NASA contracting officer should obtain their status and document the contract file accordingly.

(e)(1) The terms "resolution" and "corrective action/disposition" are defined as follows:

(i) Resolution—The point at which the IG and Management agree on the

action to be taken on audit report findings and recommendations.

(ii) Corrective action/disposition—Management action responsive to an agreed upon audit recommendation.

(2) The resolution and disposition of OMB Circular No. A-133 audits are handled as follows:

(i) Audit findings pertaining to an individual NASA award are the responsibility of the procurement officer administering that award.

(ii) Audit findings having a Governmentwide impact are the responsibility of the cognizant Federal agency responsible for oversight. For organizations subject to OMB Circular No. A-133, there is either a cognizant agency or an oversight agency. The cognizant agency is the Federal agency that provides the predominant amount of direct funding to the recipient organization unless OMB makes a specific cognizant agency for audit assignment. To provide for the continuity of cognizance, the determination of the predominant amount of direct funding will be based on the direct Federal awards expended in the recipient's fiscal years ending in 1995, 2000, 2005, and every fifth year thereafter. When there is no direct funding, the Federal agency with the predominant indirect funding is to assume the oversight responsibilities. In cases where NASA is the cognizant or oversight Federal agency, audit resolution and disposition is the responsibility of the procurement officer for the Center having the largest amount of direct funding, or, if there is no direct funding, the largest amount of indirect funding for the audited period. A copy of the memorandum dispositioning the findings shall be provided by each Center having resolution responsibility for the particular report to the Headquarters OIG office and Code HK.
