

National Aeronautics and Space Administration

1845.7202

who prepares and submits the requirement to the cognizant NASA certifying office should sign.

Block 24. Self-explanatory.

Block 25a. Not applicable.

Block 25b. Enter the name and address of the installation certifying the requirement.

Block 25c. This block is for signature of the property administrator or contracting officer at plant level.

Block 25d. Self-explanatory.

Block 25e. This block is for the signature of NASA installation official certifying the requirement.

Block 25f. Self-explanatory.

Section III

Blocks 26–29. Self-explanatory.

Section IV

N/A

Section V

Complete this section if equipment is unavailable.

Section VI

Blocks 44–47. The requesting official signing Section II, Block 23, shall complete Section VI and shall list reasons for non-acceptance in Section VIII, Remarks, or on a separate document attached to the DD Form 1419.

Section VII

Block 48. Enter the complete name, street address, city, state, and zip code of the contractor or installation to which the item is to be shipped. Indicate railhead and truck delivery points when other than the address named.

Blocks 49 and 50. Self-explanatory.

Blocks 51 a. and b. Ensure that NASA appropriation symbols are included with the work order number.

Block 51c. Enter the NASA appropriation symbol chargeable for any special work ordered (e.g., rebuild, repair, or accessory replacement).

Block 51d. Enter the NASA installation and office symbol for the organization that will make payment for transportation and packing, crating, and handling.

Block 52. Self-explanatory.

Section VIII

Block 53. This block can be used to expand or explain entries made in Blocks 1 through 52. When requisitioning equipment from excess listings, identify the issuing office, list number, date, control number, and item number assigned to the equipment. When requesting equipment from DOD inventories, refer to DOD instructions.

Subpart 1845.72—Contract Property Management

1845.7201 Definitions.

Supporting responsibility, as used in this subpart, relates to the assignment of a subcontract, or a portion of a prime contract being performed at a secondary location of the prime contractor, to a property administrator other than the individual assigned to the prime location.

Property control system, as used in this subpart, identifies a contractor’s internal management program encompassing the protection of, preservation of, accounting for, and control of property from its acquisition through disposition.

1845.7202 General.

This subpart describes major elements of the NASA Contract Property Management Program. It provides guidance to NASA installation personnel responsible for NASA contract property (NASA personal property in the possession of contractors). It applies to all NASA installation personnel charged with this responsibility, including industrial property officers and specialists, property administrators, and plant clearance officers. It also provides detailed procedures for property administration. The NASA Contract Property Management Program includes the following three major elements:

(a) Performance of property administration and plant clearance by DOD under delegations from NASA, pursuant to 1842.101.

(b) Performance of property administration and plant clearance by NASA under certain situations, pursuant to 1842.203.

(c) Maintenance of property administration and plant clearance functional oversight, regardless of delegations.

1845.7203 Delegations of property administration and plant clearance.

When delegated to DOD, property administration and plant clearance are performed in accordance with DOD's regulations and procedures, as amended by the NASA Letter of Contract Administration Delegation, Special Instructions on Property Administration and Plant Clearance. These Special Instructions are developed by the Headquarters Office of Management Systems and Facilities Logistics Management Office (Code JLG), and are available from that office upon request. The contracting officer shall issue the Special Instructions with delegations whenever Government property will be involved. Additional or more tailored property instructions are not proscribed but must be coordinated with Code JLG before issuance.

1845.7204 Retention of property administration and plant clearance.

NASA may occasionally retain the property administration and plant clearance function, such as for contract work performed at the installation awarding the contract and not subject to the clause at 1852.245-71, Installation-Accountable Government Property. In these cases, property administration shall be performed in accordance with 1845.3 through 1845.6, and plant clearance shall be performed in accordance with FAR Subpart 45.6 and 1845.6. Under the clause at 1852.245-71, property administration and plant clearance are neither delegated nor retained; they are simply not required because the property is treated as installation rather than contract property.

1845.7205 Functional oversight of property administration and plant clearance.

NASA contracting officers retain functional management responsibility for their contracts. Utilization of the contract administration services of another Government agency in no way relieves NASA contracting officers of their ultimate responsibility for the

proper and effective management of contracts. The functional management responsibility for contract property is described in this section. Beyond individual contracting officers, each NASA installation has designated an industrial property officer to manage and coordinate property matters among the various contracting officers, technical officials, contractor officials, and delegated property administrators and plant clearance officers. Generally, that individual is responsible for the entire contract property management function outlined below; the installation is responsible for the entire function regardless of how it is organized and distributed. The responsibilities are:

(a) Provide a focal point for all management of contract property, including Government property (Government-furnished and contractor-acquired) provided to universities as well as to industry.

(b) Provide guidance to contracting and other personnel on the NASA property provisions.

(c) To the extent feasible, review property provisions of acquisition plans, solicitations, contracts, and modifications for potential problems. Propose changes as necessary.

(d) To the extent feasible, participate in pre-award surveys/post-award orientations when significant amounts of Government property will be involved.

(e) Ensure that vesting-of-title determinations are made and documented pursuant to FAR 35.014(b).

(f) Maintain effective communications with delegated property administrators and plant clearance officers to keep fully informed about contractor performance and progress on any property control problems.

(1) Obtain and review property control system survey summaries for all contracts for which property administration has been delegated. Advise Code JLG of any severe or continuing problems.

(2) Provide property administrators copies of all pertinent contract property documentation.

(g) Review and analyze NASA Form 1018, NASA Property in the Custody of Contractors.
